Bell technology lets the 412SP handle as well on the ground as it does in the air.

The Bell 412SP's spacious interior has always offered a world of comfort for the corporate world. And now its comfort is greater than ever, thanks to a new optional wheel kit.

When equipped with wheels, the 412SP's ground handling characteristics are greatly improved. Instead of hovering, it can taxi. Which not only makes for a smoother ride, it makes the 412SP a better neighbor to other aircraft.

A quiet, well-appointed interior provides room to work en route to a meeting. Or just a comfortable haven in which to relax.

Its dependable Pratt & Whitney PT6T-3B Twin Pac® engines give the 412SP the highest dispatch reliability in its class. And combined with its extended-life limits on all major components, the 412SP provides unmatched operating economy year after year.

The 412SP. Unmatched comfort. Proven dependability. Low operating costs. The best service and support in the industry. It's everything you've come to expect of the technologies at Bell, the world's most experienced helicopter manufacturer.

Bell Helicopter Textron Inc., Box 482, Ft. Worth, Texas 76101, (817) 280-8200.

THE FUTURE IS OURS BY DESIGN.

1991 Helicopter Annual Publisher's Note

Entering its ninth year of publication, HAI's Helicopter Annual continues to be one of the most utilized information resources in the civil helicopter industry. The Annual is much more than a membership directory. It is referred to daily in literally thousands of operator, manufacturer, supplier and government offices, and is a resource for personnel in heliports, flight schools, as well as for pilots, maintenance and safety officers internationally (HAI).

This excellent reference guide and member directory contains vital information and statistics on the civil helicopter industry and, in particular, the Helicopter Association International.

This year, the Helicopter Annual features a new section entitled Safety Audits/Inspections in the Buyers' Guide on P. 84. This represents a new Operators' Services Listing.

The Annual again contains a listing of HAI's new Pilot/Mechanic membership category which has proven a popular membership addition.

This 1991 Helicopter Annual will be distributed to: every registrant at Heli-Expo '91 and to selected visitors at other major aviation events such as the Farnborough and Paris Air Shows; the general business and aviation trade press; the Federal Aviation Administration, Department of Transportation and Department of Commerce; the National Transportation Safety Board and the National Transportation Research Board; each member of Congress and the U.S. Senate; and the aviation travel departments of the Fortune 500, among others.

In its eight-year history, the Helicopter Annual has won three prestigious awards for layout and design including a Gold Circle Award from the American Society of Association Executives, and an award for excellence in a national desktop publishing contest sponsored by Xerox Corporation! No wonder the Annual has long been considered the "reference bible" of the industry.

The Helicopter Association International appreciates comments from operators, manufacturers, and other industry professionals, on the contents of the Annual, and ways it can be further improved.

Sincerely,

Matthew S. Zuccaro

Frank L. Jensen, Jr.

Telltale Technology: *The Fenestron shrouded tail rotor on Aerospatiale's Dauphin 2 combines higher aerodynamic efficiency with lower drag and vibration – while reducing exposure to impact damage and increasing the safety of ground operations.*

If you're not looking at Aerospatiale, you're not looking far enough ahead.

Take a look at some of the most advanced rotorcraft technology in the world. Technology that's been designed to take you into the 1990s and beyond. And it's available only from Aerospatiale.

Because only Aerospatiale offers the depth of engineering, advanced manufacturing and technology integration necessary to build helicopters that will exceed the demands of today's, and tomorrow's, market.

And only Aerospatiale backs them with a reinforced product support network that's as solid and responsive as the aircraft it stands behind.

So take a close look. Then give us a call. Aerospatiale Helicopter Corporation, 2701 Forum Drive, Grand Prairie, Texas 75053 (800) 873-0001.

The 1991 Helicopter Annual Cover

A strobe light enhances a photo of the McDonnell Douglas 520N with the NOTAR®, no tail rotor system, as the helicopter lifts off during a moonless night in the desert near the company's Mesa, AZ headquarters. (HAI thanks McDonnell Douglas Helicopter Co. photographers Mark Comerford, Bob Ferguson, and Mike Goettings for creating this photo).

Helicopter Association International

This, the ninth edition of the Helicopter Annual, is dedicated to the individuals and organizations which comprise the Helicopter Association International (HAI) and whose collective efforts are responsible for most of the advancements in the civil helicopter industry.

Included in this dedication are:

- *The Members of HAI, many of whom have supported the association, and thus the industry, for many decades. "In Unity There is Strength!"*
- *HAI's elected leaders, the Board of Directors. These individuals give unselfishly of their energy, talents and time, with no compensation other than the knowledge that they are, through their efforts, working toward the common good.*
- *The chairmen of HAI's committees, and all of the committee members, who, like the Board, also serve without compensation from HAI. The value of HAI's committees to the industry is significant.*
- *HAI's dedicated staff, whose loyalty and productivity transcend the ordinary parameters of "employment."*

Seeing eye to eye with you is the first step in responsive support.

At MBB, we make it our business to know as much as we can about you and your operation. Because understanding your business gives us the perspective we need to shape our customer service organization to be responsive to your needs.

Understanding means responding directly to your day-to-day needs with the full range of services you expect. From North American-based parts support to field service to warranties – resourceful services that hold downtime to a minimum, and work to increase productivity and cost effectiveness.

It means regular visits from MBB technical representatives who evaluate BO 105 and BK 117 performance in actual field operations.

It means responding with long-range programs and ongoing design improvements, such as reduced inspection items and TBO and TCI extensions, that enhance performance, reduce maintenance, and lower direct operating costs.

And it means hosting customer service mini-conferences at convenient locations so the maximum number of operator personnel can attend, strengthening the important communications link between MBB and the maintenance technicians.

If your helicopter company isn't seeing eye to eye with you on the support services it takes to keep you operational and profitable, fly with one that does. The one that makes customer service its number one priority. MBB.

Innovations at work.

Key Helicopter Statistics

The most requested statistical data about helicopters.

HAI is a focal point for statistical information on our industry. We are continuing our efforts to provide better statistics on the industry, both nationally and internationally. We have carefully reviewed these statistics and they are the most accurate available. We will continue to work with World Aircraft Registries, as well as the National Transportation Safety Board, the FAA and other government agencies to provide consistently accurate data on the helicopter industry.

U.S. helicopter fleet by model and series

(as of Dec. 1990)
The following section breaks out the US fleet by manufacturer, model and series.
Age is computed as average of total count on production helicopters with verifiable years of manufacture.

Manufact.	Model/ Series	Type	No. of engines	No. of aircraft	Avg Age
Aerospatiale	AS 315B	Turb	1	50	13

U.S. Civil Helicopter Safety Trends

The following tables reflect data reported to and compiled by the National Transportation Safety Board (NTSB) and the Federal Aviation Administration (FAA). Data for some previous years have been adjusted to reflect the latest NTSB information, and the hours flown reflect FAA data. HAI does not include data on homebuilts.

The 1990 P (preliminary) data is projected based on preliminary reports through October 1990 and estimates for November and December. Additional statistical data is available from the HAI Safety Department and is expected to be included in an HAI "Helicopter Fact Card" in the near future. Readers may also subscribe to HAI's monthly Preliminary Accident Reports/Technical Notes/ADs/SDRs to keep up-to-date on accident summaries and statistics during the year.

Number of civil helicopter accidents

	1986	1987	1988	1989	1990P
Total number of civil helicopter accidents	216	183	196	201	208
Total number of fatal helicopter accidents	42	29	26	32	31
Total number of serious injury accidents	55	38	59	53	56
Total number of minor injury accidents	84	66	76	76	76

Helicopter accident rate per 100,000 flying hours

	1986	1987	1988	1989	1990P
Accident rate	8.98	6.78	7.24	7.18	7.70
Fatal accident rate	1.75	1.07	0.96	1.14	1.15
Fatal injuries rate	4.11	2.37	1.59	1.64	1.63
Serious injuries rate	2.29	1.41	2.18	1.89	2.07
Minor injuries rate	3.49	2.44	2.81	2.71	2.81

Helicopter accident rate per 100,000 departures

	1986	1987	1988	1989	1990P
Accident rate	2.99	2.26	2.41	2.29	2.57
Fatal accident rate	0.58	0.36	0.32	0.38	0.38
Fatal injuries rate	1.37	0.79	0.53	0.55	0.54
Serious Injuries rate	0.76	0.47	0.73	0.63	0.69
Minor injuries rate	1.16	0.81	0.94	0.90	0.94

* For helicopters, this is based on three flights per hour. The term "departures" is used for consistency with other FAA/DOT/NTSB data.

Civil helicopters: estimated hours flown & number of departures (millions)

	1986	1987	1988	1989	1990P
Total helicopter hours flown	2.406	2.700	2.707	2.800	2.700

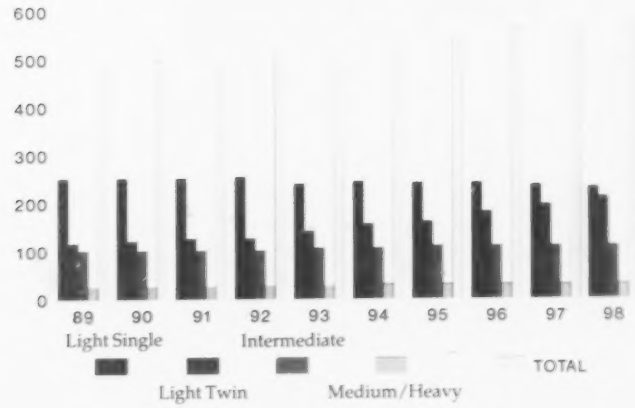
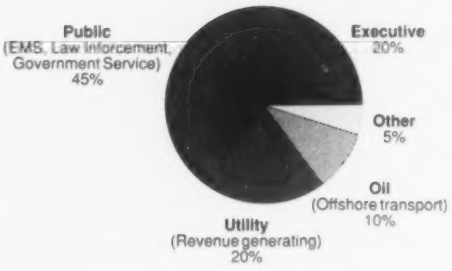
WORLDWIDE
NTRB MEAN FORECAST



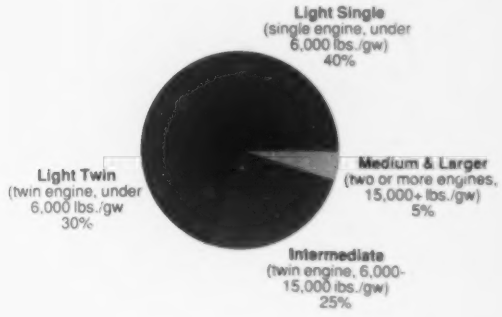
Since 1985, the National Transportation Research Board (NTRB) has annually re-adjusted its total world civil turbine unit delivery forecast downward from 9463 to 5280. The medium/heavy and intermediate categories sales continue to be adjusted downward and are forecasted to remain relatively flat for the next decade. In contrast, light single and twin turbine orders are up, and the NTRB anticipates continued increased sales, albeit modest. Overall, the NTRL forecasts a three to four percent annual increase in total civil turbine helicopter sales for the next ten years.

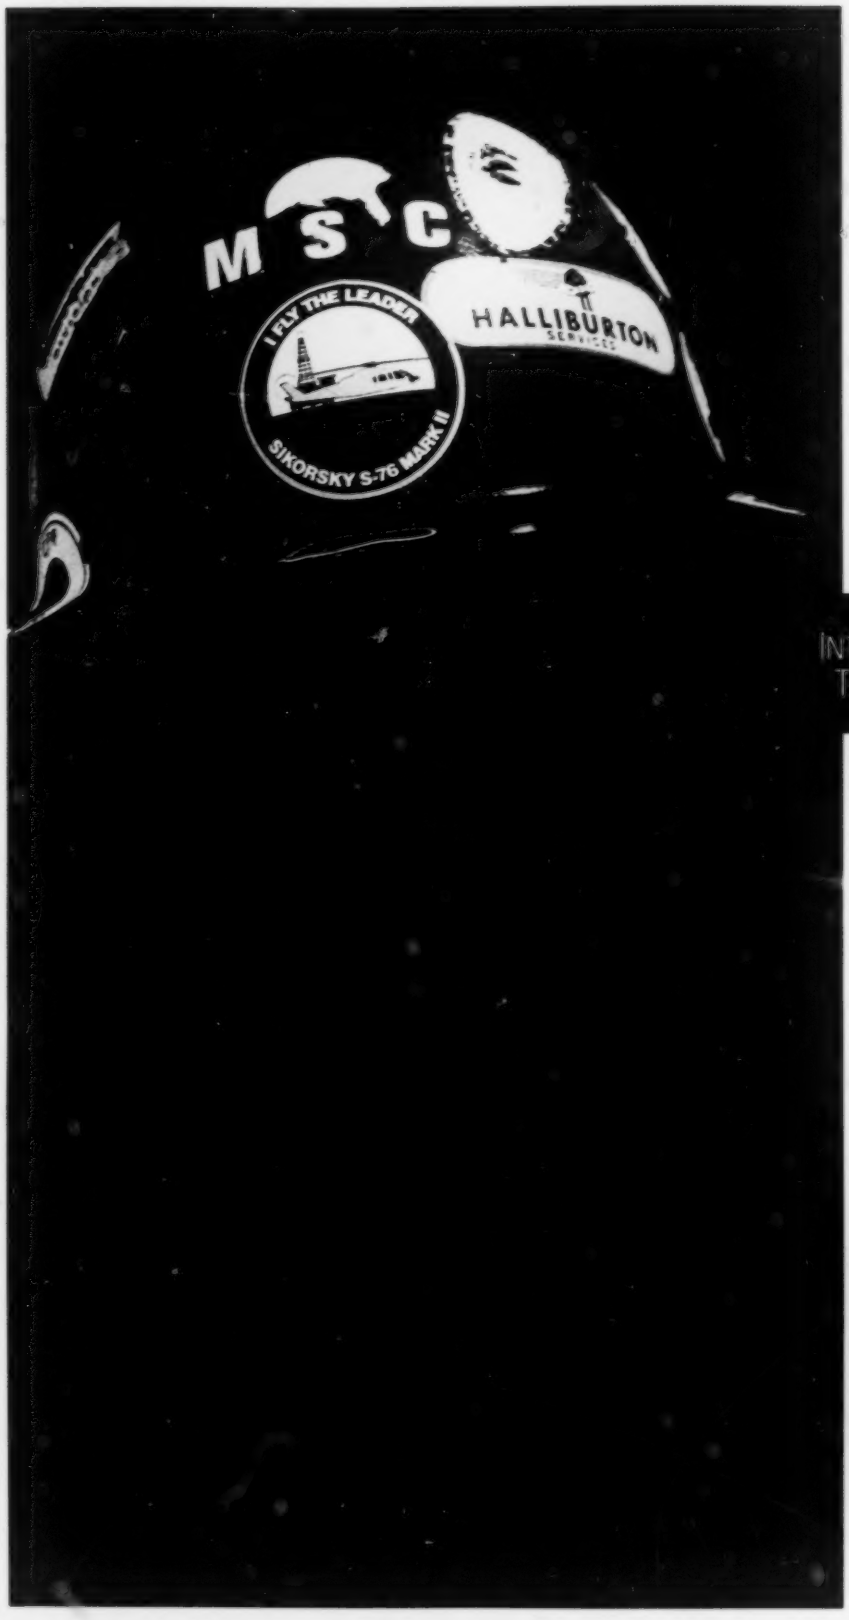
Civil Market Outlook - Source: Sikorsky Aircraft
1990 - 1999

MISSION



WEIGHT CLASS





"LONG HOURS. BLAZING HEAT. I CAN ALREADY TASTE THE SALT IN THE AIR. SO WHAT AM I SMILING ABOUT? I'M GOING TO WORK IN AN S-76."

He only knows it's a great way to fly. Smooth. Roomy by every standard. Fast. And it's an S-76.

If you're an oil operator, there's something you should know. The new S-76C. Advanced helicopter technology from Sikorsky powered by twin Arriel engines from Turbomeca.

INTRODUCING THE S-76C.

The new "C" is designed for high reliability and low cost of operation. With highly efficient Arriel turbine engines. Range and payload: carry a full load of 12 passengers 360 nautical miles. With comfortable business jet performance that operators and passengers have come to expect from the S-76. And a surprisingly low cost per seat mile.

With numbers like these, you'll be smiling, too.

For an oil brochure and S-76C specifications, call Vaughan Askue, Commercial Marketing, (203) 381-6143.

THE S-76. THE ULTIMATE WAY TO WORK.

UNITED TECHNOLOGIES SIKORSKY AIRCRAFT

Heliport Statistics

This heliport data was compiled by HAI in cooperation with Eventide Avionics. It is based on source data from the Federal Aviation Administration's National Flight Data Center (NFDC) as of December 1990. NFDC reports reflect only those permanent heliports which have been reported to the FAA and do not include temporary heliports or offshore heliports.

Eventide Avionics uses the FAA data to program their Argus 5000 Moving Map Display, a panel mounted instrument showing aircraft location with respect to airports, navaids, and special use airspace, including TCAs and ARSAs.

The total number of reported helicopter landing areas increased by 3.9 percent since 11/20/90. 95.6 percent of all U.S. helicopter landing sites are designated as private use, while 4.4 percent are designated as public use. There has been an increase of 179 private use heliports and helistops, but a decrease of 11 public use helicopter landing facilities.

If you own or operate a private heliport, HAI encourages you to permit others to use your facility on an emergency or special permission basis. Contact your state aviation office or HAI's Director of Heliports and Technical Programs for details.

HAI's Helicopter Hotline offers detailed information on all permanent helicopter landing facilities in the United States and Canada.

Information on using the Helicopter Hotline is located on page 56 of this 1991 Helicopter Annual.

The printed bound issue of the HAI Heliport Directory is now available. Please contact HAI for further information.

One helicopter. Many missions.

The Boeing CH-47D is a national asset that performs both military and civil missions. In military use, the Chinook has the power to turn the tide of battle. In civil service, it provides quick relief in times of national emergency. And it's a nation-builder, proven in service around the world. The CH-47D Chinook is technologically advanced, versatile, reliable and ready. One helicopter that fulfills many missions.

For details, write: Boeing Helicopters, Marketing Department, P.O. Box 16858, Philadelphia, PA 19142.

This is half of Allison's service area. You can see the other half in 12 hours.

Product support is the last thing in the world that customers of Allison Model 250 engines need to worry about.

They can turn to a worldwide network of nine Model 250 Distributors and 23 Authorized Maintenance/Overhaul Centers for maintenance, repair, overhaul, service parts, unit exchange and training.

It's the kind of product support you'd expect for the engine that's in over 70% of the world's light turbine-powered helicopters. And the kind of service that makes a world of difference to Allison customers.

Allison

I Count on Castleberry for Service
Bob Carpenter, Carpenter Avionics, Nashville, TN
"I've been doing business with Castleberry for 20 years. Our people use them for trouble-shooting advice, technical help, overhaul or exchange of our customers' units - you name it. They understand our needs. With their help, our problems are usually solved with a simple 'phone call. And when you do call, you don't get an order-taker, but a concerned professional technician who knows the answers. I count on Castleberry for that kind of service!"
INSTRUMENTS & AVIONICS: Service • Overhaul • Exchange • Technical capability • AOG Response
Castleberry — The people who know instruments best!
BFGoodrich
Aerospace
CASTLEBERRY

Civil Aviation Officials in the U.S.

*A listing of key Department of Transportation, Federal Aviation Administration, NTSB and State Aviation officials. Direct phone numbers and office symbols/mail codes follow each listing. FAA Headquarters offices, Academy/Technical centers, Regional Headquarters and Airport, Flight Standards and Air Traffic Divisions, FSDO's, Heliport Coordinators**, Accident Prevention Coodinators and other special offices of interest to helicopter operations are included. Mailing addresses for the major and subordinate offices immediately follow the major offices which are surrounded by a box outline.*

The Executive Directors of three of the five FAA Directorates retired in late 1990 and the FAA was reviewing the status of these directorates at publication deadline for the Annual. The Associate Administrators, immediately subordinate to those Executive Directors are fulfilling the Directorate functions. A chart of the most recent FAA organizational structure follows below. DOT and FAA Headquarters listings begin on this page and FAA Regional listings begin on page 23. The NTSB and the State Aviation Officials listings begin on page 26.*

FAA REGIONAL HEADQUARTERS

The FAA Regional Division Managers, e.g., Airports, Flight Standards, Air Traffic and other Divisions are directly responsible to appropriate FAA Headquarters offices under the FAA's line management organizational structure, illustrated on page 21. Regional Heliport Coordinators and Accident Prevention Coordinators/Specialists work for, and are found under, the respective Divisions/FSDO's. APS's not listed under FSDO's will be listed in the 1992 Annual. Regional Administrators remain active, and work closely with all FAA offices, and may be contacted for assistance when appropriate.

Civil. Helicopter. Operator.

ROTOR

At last, a voice for the civil helicopter industry. A voice for the advocacy of workable solutions to important industry concerns such as: safety, heliport development, media relations, legislative affairs and regulatory oversight.

ROTOR, a magazine by the industry and for the industry. A four-color quarterly publication with news about the civil helicopter community from a spectrum of sources including: manufacturers, suppliers, the FAA, regulatory agencies and, of course, the operators. Affiliate members of HAI will also be integral sources of information for **ROTOR.**

ROTOR advertising dollars will be used to defray costs of this publication...and to improve its value to the industry.

ROTOR...a magazine whose time has come. Industry members are asked to submit copy to the editor by writing: **ROTOR**, Helicopter Association International, 1619 Duke St., Alexandria, VA 22314.

For a copy of HAI's media kit please contact Publications Plus Inc. at (703) 683-0366 or fax requests to (703) 683-4980.

U.S. Aviation Policy Makers

The following members of congressional committees form policy that affects helicopter operations directly and indirectly. Although no major leadership changes are expected in the 102nd Congress, the committee rosters will change as newly elected members receive their assignments. Committee members are listed by party and seniority.

SENATE STANDING COMMITTEES

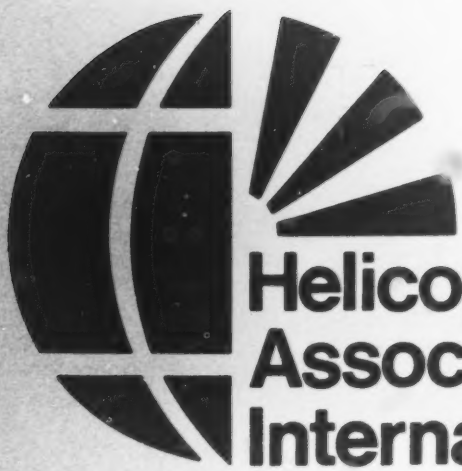
BUYERS' GUIDE



Helicopter
Association
International

The Civil Helicopter

Significant data on helicopters manufactured by domestic and international airframe companies.

Today's helicopter fleet offers a broad range of aircraft, uniquely able to perform a variety of missions.

All data are listed in both English and Metric units of measure. In addition, such key data as maximum optional fuel capacity, engine horsepower, range with optional fuel and a listing of standard avionics provide a complete picture of each machine's capabilities.

This information is to be used solely as a guide. Helicopter capabilities will vary with flight conditions and installed options.

Data and operating limitations for specific missions are available from the manufacturer. A manufacturer's contact and phone number is listed for each model. Prices shown are subject to change by the manufacturer.

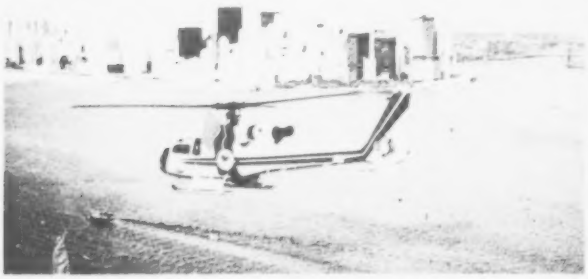
Manufacturer/Model Aerospatiale Lama
Total Production (all variants) 400 **First flight** 1969
Comments Specifications shown are for SA315B Lama. This aircraft holds absolute altitude record for helicopters of any category: 40,820 ft/12,442m by Jean Boulet in 1972.
Engine(s) Artouste III B1 **HP (takeoff)** 858 shp
Dimensions main rotor 36.2 ft/11 m **Tail rotor** 6.3 ft/1.9 m
Height 10.1 ft/3.1m **Length** 42.3 ft/12.9m **Width** 7.8 ft/2.4m
Empty weight 2,266 lbs/1,028 kg **Gross weight** 4,300 lbs/1,950 kg
Useful load 2,034 lbs/922 kg **External** 2,646 lbs/1,200 kg
Vne 113 kts/209 kmh **Max cruise** 103 kts/192 kmh
Max rate of climb 1,083 fpm/330 mpm
HIGE 16,565 ft/5,050m **HOGE** 15,100 ft/4,600m
Service ceiling 17,720 ft/5,400m **S/E service ceiling** N/A
Std fuel 152 gal/573 lit **Max fuel** N/A
Max range std fuel (no reserve) 278 nm/515 km
Range with opt fuel N/A
VFR Crew 1 **passengers** 4
Standard avionics None. Optional factory installed avionics available.
1991 base price ($U.S.) Please call
For more information contact Ron LaFleur (214)641-0000

Manufacturer/Model Aerospatiale Super Frelon
Total production (all variants) 105 **First flight** 1962
Comments Specifications shown are for SA321JA Super Frelon.
Engine(s) (3) Turbomeca Turmo III C6 **HP (takeoff)** 1,515 shp ea.
Dimensions main rotor 62.0 ft/18.9m **Tail rotor** 13.1 ft/4.0m
Height 21.9 ft/6.7m **Length** N/A **Width** 16.1 ft/4.9m
Empty weight 15,245 lbs/6,915 kg **Gross weight** 28,660 lbs/13,000 kg
Useful load 13,415 lbs/6,085 kg **External** 11,000 lbs/5,000 kg
Vne 148 kts/275 kmh **Max cruise** 134 kts/248 kmh
Max rate of climb 1,300 fpm/396 mpm
HIGE 6,230 ft/1,900m **HOGE** limited to 27,515 lbs/2,480 kg at sea level
Service ceiling 10,000 ft/3,050m **S/E service ceiling** *3,940 ft/1,200m on 2 engines. *One engine out. Two engine service ceiling.
Std fuel 1,030 gal/3,900 lit **Max fuel** 1,822 gal/6,897 lit
Max range std fuel (no reserve) 432 nm/800 km @ 126 kts/232 kmh
Range with opt fuel 764 nm/1,416 km
VFR Crew 2 **Passengers** 27
Standard avionics SFIM autopilot.
Base price ($U.S.) Out of production
For more information contact Ron LaFleur (214)641-0000

Manufacturer/Model Aerospatiale Puma
Total production (all variants) 703 **First flight** 1965
Comments Specifications shown are for SA330J Puma.
Engine(s) (2) Turbomeca Turmo IV C **HP (takeoff)** 1,494 shp ea.
Dimensions main rotor 49.5 ft/15.1m **Tail rotor** 10.0 ft/3.0m
Height 16.9 ft/5.1m **Length** 59.8 ft/18.2m **Width** 9.8 ft/3.0m
Empty weight 8,358 lbs/3,792 kg **Gross weight** 16,315 lbs/7,400 kg
Useful load 7,957 lbs/3,608 kg **External** 7,055 lbs/3,200 kg
Vne 142 kts/263 kmh **Max cruise** 139 kts/258 kmh
Max rate of climb 1,200 fpm/366 mpm
HIGE 7,545 ft/2,300m **HOGE** 5,580 ft/1,700m
Service ceiling 15,750 ft/4,800m **S/E servcie ceiling** 7,220 ft/2,200m
Std fuel 408 gal/1,544 lit **Max fuel** 1,098 gal/4,156 lit
Max range std fuel (no reserve) 297 nm/550 km @ 134 kts/248 kmh
Range with opt fuel 799 nm/1,481 km
VFR Crew 2 **Passengers** 18
Standard avionics None. Optional factory installed avionics available.
Base price ($U.S.) Out of production.
For more information contact Ron LaFleur (214)641-0000

Manufacturer/Model Aerospatiale Ecureuil AS 350 B
Total production (all variants) 1,274 ("B" & "D") **First flight** 1976
Comments Specifications shown are for AS350B Ecureuil. Retrofit kits available for conversion of 350D to 350B
Engine(s) (1) Tubomeca Arriel 1B **HP (takeoff)** 641 shp
Dimensions main rotor 35.1 ft/10.7m **Tail rotor** 6.1 ft/1.9m
Height 10.3 ft/3.2m **Length** 42.6 ft/13m **Width** 8.3 ft/2.5m
Empty weight 2,458 lbs/1,115 kg (U.S.) **Gross weight** 4,300 lbs/1,950 kg
Useful load 1,842 lbs/835 kg (U.S.) **External** 2,000 lbs/907 kg
Vne 147 kts/272 kmh **Max cruise** 125 kts/232 kmh
Max rate of climb 1,555 fpm/474mpm
HIGE 9,675 ft/2,950m **HOGE** 7,380 ft/2,250m
Service ceiling 15,600 ft/4,750m **S/E service ceiling** N/A
Std fuel 141 gal/535 lit **Max fuel** 266 gal/1,010 lit
Max range std fuel (no reserve) 389 nm/720 km @ 121 kts/224 kmh
Range with opt fuel 733 nm
VFR Crew 1 **Passengers** 6
Standard avionics None. Optional factory installed avionics available.
Base price ($U.S.) $695,000
For more information contact Ron LaFleur (214)641-0000



Manufacturer/Model Aerospatiale Gazelle
Total production (all variants) 1210 **First flight** 1967
Comments Specifications shown are for SA342J Gazelle.
Engine(s) (1) Turbomeca Astazou XIV H **HP (takeoff)** 592 shp
Dimensions main rotor 34.5 ft/10.5m **Tail rotor** 2.3 ft/0.7m
Height 10.5 ft/3.2m **Length** 39.3 ft/12m **Width** 6.6 ft/2m
Empty weight 2,164 lbs/982 kg **Gross weight** 4,190 lbs/1,900 kg
Useful load 2,026 lbs/918 kg **External** 1,540 lbs/700 kg
Vne 167 kts/310 kmh **Max cruise** 142 kts/264 kmh
Max rate of climb 2,010 fpm/613 mpm
HIGE 11,970 ft/3,650m **HOGE** 9,430 ft/2,875m
Service ceiling 14,105 ft/4,300m **S/E service ceiling** N/A
Std fuel 144 gal/545 lit **Max fuel** 197 gal/745 lit
Max range std fuel (no reserve) 407 nm/754 km @ 128 kts/238 kmh
Range with opt fuel 557 nm/1,032 km
VFR Crew 1 **Passengers** 4
Standard avionics None. Optional factory installed avionics available.
Base price ($U.S.) Civil version out of production
For more information contact Ron LaFleur (214)641-0000

Manufacturer/Model Aerospatiale Ecureuil AS 350 B1
Total production (all variants) 1049 ("B" & "D") **First flight** N/A
Comments Specifications shown are for AS350B1 Ecureuil.
Engine(s) (1) Tubomeca Arriel 1D **HP (takeoff)** 684 shp
Dimensions main rotor 35.1 ft/10.7m **Tail rotor** 6.10 ft/1.86m
Height 10.3 ft/3.14m **Length** 42.45 ft/12.94m **Width** 8.30 ft/2.53m
Empty weight 2,524 lbs/1,145 kg (US) **Gross weight** 4,850 lbs/2,200 kg
Useful load 2,326 lbs/1,055 kg (US) **External** 2,557 lbs/1,160 kg
Vne 147 kts/276 kmh **Max cruise** 123 kts/277 kmh
Max rate of climb 1,732 ft/min
HIGE 9,184 ft/2,800m **HOGE** 6,560 ft/2,000m
Service ceiling 14,440 ft/4,400m **S/E service ceiling** N/A
Std fuel 141 gal/535 lit **Max fuel** N/A
Max range std fuel (no reserve) 335 nm
Range with opt fuel N/A
VFR Crew 1 **Passengers** 5/6
Standard avionics None. Optional factory installed avionics available.
1991 Base price ($U.S.) $760,000 (1989 Delivery)
For more information contact Ron LaFleur (214)641-0000

Manufacturer/Model Aerospatiale Ecureuil AS 350 B2
Total Production 1274 **First Flight** 1987
Comment Specifications are for AS 350B2 Ecureuil
Engine Turbomeca Arriel 1D1, 732 shp
Dimemsions main rotor 35.1 ft/10.7 m **Tail rotor** 6.10ft/1.86 m
Height 10.3ft/3.14m **Length** 42.5/12.94m **Width** 8.30 ft/2.53 m
Empty weight 2,500 lbs/1,134 kg (US) **Gross weight** 4,960lbs/2,250 kg
Useful load 2,460 lbs/1,116 kg (US) **External** 2,557 lbs/1,160 kg
Vne 155 kts/287 kmh **Max cruise** 133 kts/287 kmh
Max rate of climb 1,675 ft/min
HIGE 9,850 ft/3,060 m **HOGE** 7,550 ft/2,300 m
Service ceiling 15,100 ft/4,600 m **S/E service ceiling** N/A
Std fuel 141 gal/535 lt **Max fuel** 266 gal/1,010 lit
Max range std fuel (no reserve) 360 nm
Range with opt fuel 679 nm
VFR Crew 1 **Passengers** 5/6
Standard avionics none. Optional factory installed avionics packages available.
1990 base price (US$) 805,000

Manufacturer/Model Aerospatiale AStar Mark III
Total production (all variants) 1049 ("B" & "D") **First flight** 1976
Comments Specifications shown are for AS350D AStar Mark III.
Engine(s) (1) Avco Lycoming LTS 101-600A3 **HP (takeoff)** 615 shp
Dimensions main rotor 35.1 ft/10.7m **Tail rotor** 6.1 ft/1.9m
Height 10.3 ft/3.2m **Length** 42.6 ft/13m **Width** 8.3 ft/2.5m
Empty weight 2,432 lbs/1,103 kg **Gross weight** 4,300 lbs/1,950 kg
Useful load 1,868 lbs/847 kg **External** 2,000 lbs/907 kg
Vne 147 kts/272 kmh **Max crusie** 125 kts/232 kmh
Max rate of climb 1,713 fpm/522 mpm
HIGE 8,858 ft/2,700m **HOGE** 5,577 ft/1,700m
Service ceiling 14,900 ft/4,540m **S/E service ceiling** N/A
Std fuel 137 gal/520 lit **Max fuel** 263 gal/995 lit
Max range std fuel (no reserve) 405 nm/750 km @ 108 kts/200 kmh
Range with opt fuel 777 nm/1,441 km
VFR Crew 1 **Passengers** 6
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) Price on Request

© 1990 BMW of North America, Inc. The BMW trademark and logo are registered.

BMW has never believed a high-performance car should mean a low-comfort environment. The 5-Series interior offers ample proof of that: Here, you'll find a newly refined BMW cockpit, providing a heightened sense of control. Orthopedically-designed leather seats. Rear seat belts that offer special protection in lateral collisions. All creating a balance of function, safety, and luxury. And all ready for your inspection at an authorized BMW dealer. Where you'll find the new dress code for high performance is strictly enforced. THE ULTIMATE DRIVING MACHINE.

Manufacturer/Model Enstrom Model F-28F Falcon
Total production (all variants) 71 **First flight** 1980
Comments Enstrom's emphasis on product support and the operator's needs is reflected in the 225 hp "F" series, which provides 2,600 lb gross weight. HIGE capabilities on an ISA + 30 degree day at 9,400 ft.
Engine Lycoming HIO-360-F1ADw/turbocharging **HP(continuous)** 225
Dimensions main rotor 32 ft/9.75m **Tail rotor** 4.7 ft/1.43m
Height 9 ft/2.74m **Length** 29.3 ft/8.9m **Width** 7.3 ft/2.23m
Empty weight 1,570 lbs/712 kg **Gross weight** 2,600 lbs/1,180 kg
Useful load 1,030 lbs/467 kg **External** 1,000 lbs/454 kg
Vne 97 kts/180 kmh (SL to 915m) **Max cruise** 97 kts/180 kmh
Max rate of climb 1,450 fpm/442 mpm
HIGE 13,200 ft/4,023m **HOGE** 8,700 ft/2,652m @ 2,350 lbs
HIGE 7,700 ft/2,347m @ 2,600 lbs
Service ceiling 12,000 ft/3,658m (max. op. alt.) **S/E service ceiling** N/A
Std fuel 42 gal/159 lit **Max fuel** 53 gal/201 lit
Max range std fuel (no reserve) 228 nm/423 km
Range with opt fuel 313 nm/580 km **VFR** Crew 1 **Passengers** 2
Standard avionics None. Optional factory installed avionics available.
1991 base price ($U.S.) 191,000
For more information contact James Zimmerman (906)863-9971

Manufacturer/Model Enstrom Model 280FX Shark
Total production (all variants) 41 **First flight** 1984
Comments T.C. Jan. 1985. Basic 280 series with new stabilizers, landing gear fairings, tail rotor driveshaft cover, restyled air inlet system, tail rotor guard.
Engine(s) Lycoming HIO-360-F1AD w/Turbo **HP (continuous)** 225
Dimensions main rotor 32.0 ft/9.75m **Tail rotor** 4.7 ft/1.43m
Height 9 ft/2.74m **Length** 29.3 ft/8.9m **Width** 7.3 ft/2.23m
Empty weight 1,585 lbs/719 kg **Gross weight** 2,600 lbs/1,180 kg
Useful load 1,015 lbs/460 kg **External** 1,000 lbs/454 kg
Vne 101 kts/188 kmh **Max cruise** 101 kts/188 kmh
Max rate of climb 1,450 fpm/442 mpm
HIGE 13,200 ft/4,023m **HOGE** 8,700 ft/2,652m @ 2,350 lbs
Service ceiling 12,000 ft/3,658m (max. op. alt.) **S/E service ceiling** N/A
Std fuel 42 gal/159 lit **Max fuel** 53 gal./201 lit.
Max range std fuel (no reserve) 260 nm/483 km
Range with opt fuel 348 nm/644 km
VFR Crew 1 **Passengers** 2
Standard avionics None. Optional factory installed avionics available.
1991 base price ($U.S.) 206,900

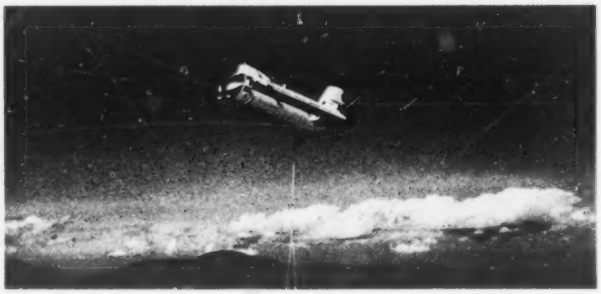
Manufacturer/Model Kawasaki Heavy Industries, Ltd./
Kawasaki-Hughes H500 series
Total production (all variants) 287 **First flight** 1967
Comments Manufactured under license from Hughes Helicopter. A lightweight high performance 5 seat helicopter.
Engine(s) (1) D.D. Allison 250-C20B (D model) **HP (takeoff)** 420 shp
Dimensions main rotor 26.42 ft/8.05m **Tail rotor** 4.58 ft/1.40m
Height 8.94 ft/2.72m **Length** 30.5 ft/9.30m **Width** 6.79 ft/2.07m
Empty weight 1,369 lbs/621 kg **Gross weight** 3,000 lbs/1,361 kg
Useful load 1,631 lbs/740 kg **External** 2,181 lbs/989 kg
Vne 152 kts/282 kmh **Max cruise** 139 kts/258 kmh
Max rate of climb 1,875 fpm/572 mpm
HIGE 8,500 ft/2,591m **HOGE** 7,400 ft/2,256m
Service ceiling 14,700 ft/4,481m **S/E service ceiling** N/A
Std fuel 64 gal/242 lit **Max fuel** N/A
Max range std fuel (no reserve) 260 nm/481 km
Range with opt fuel N/A
VFR Crew 1 **Passengers** 4
Standard avionics None. Optional factory installed avionics available.
1991 base price ($U.S.) N/A
For more information contact Maomi Yakushiji (03) 435-2495

Manufacturer/Model Kawasaki Heavy Industries, Ltd./BK117 B-1
Total production (all variants) 59 **First flight** 1979
Comments A true multi-purpose light-twin helicopter jointly developed by Kawasaki and MBB of West Germany. Safety, reliability and versatility are the prime design objectives.
Engine(s) (2) Avco-Lycoming LTS101-750B-1 **HP (takeoff)** 550 shp ea.
Dimensions main rotor 36.09 ft/11m **Tail rotor** 6.42 ft/1.956m
Height 11.02 ft/3.36m **Length** 42.65 ft/13m **Width** 8 86 ft/2.70m
Empty weight 3,704 lbs/1,680 kg **Gross weight** 7,056 lbs/3,200 kg
Useful load 3,352 lbs/1,520 kg **External** N/A
Vne 150 kts/278 kmh **Max cruise** 134 kts/248 kmh
Max rate of climb 1,900 fpm/582 mpm
HIGE 4,900 ft/1,490m (17kt cross wind) **HOGE** 7,500 ft/2,290m
Service ceiling 15,000 ft/4,572m @ 3,000 kg **S/E service ceiling** 5,800 ft/1,770m
Std fuel 187 gal/710 lit **Max fuel** 240 gal/910 lit
Max range std fuel (no reserve) 299nm/554km (at best range speedS/L)
Range with opt fuel 384nm/712 km, S/L
(The above data are based on 3,200 kg gross weight except stated).
VFR Crew 1 **Passengers** 10 **Standard avionics** 1 VHF (CollinsVHF-251).
1991 base price ($U.S.) N/A
For more information contact Maomi Yakushiji (03)435-2495



Manufacturer/Model Kawasaki-Boeing KV107IIA
Total production (all variants) 156 **First flight** 1962
Comments Kawasaki-built KV107's are operated by the Japan Self-Defense Forces, Tokyo Police, Airlift Corp., (Japan), Columbia Helicopters, (U.S.), the Royal Swedish Navy, & the Ministry of Interior, Saudi Arabia.
Engine(s) (2) CT58-140-1 or CT58-IHI-140-1 **HP (takeoff)** 1,400 shp
Dimensions main rotor 50 ft/15.24m **Tail rotor** N/A
Height 16.10 ft/5.13m **Length** 83.4 ft/25.40m **Width** 14.6 ft/4.42m
Empty weight 11,570 lbs/5,248 kg **Gross weight** 19,000 lbs/8,618 kg
Useful load 7,430 lbs/3,370 kg **External** 7,430 lbs/3,370 kg
Vne 146 kts/270 kmh **Max cruise** 135 kts/250 kmh
Max rate of climb 2,000 fpm/610 mpm
HIGE 12,000 ft/3,810m **HOGE** 9,000 ft/2,743m
Service ceiling 18,000 ft/5,486m **S/E service ceiling** 5,700 ft/1,740m
Std fuel 350 gal/1,325 lit **Max fuel** N/A
Max range std fuel (no reserve) 238 nm/441 km
Range with opt fuel N/A **VFR Crew** 3 **Passengers** 25
Standard avionics ADF, Gyro compass, transponder, VHF, ICS, SAS AST.
1991 base price ($U.S.) N/A

THE COST OF INSURANCE HAS COME DOWN TO EARTH

INTRODUCING A HULL AND LIABILITY PROGRAM THAT WILL SUBSTANTIALLY SAVE ON INSURANCE COSTS.

In cooperation with Helicopter Association International, Aviation Insurance Center, Inc. has developed the most exciting helicopter insurance program ever offered.

This program, underwritten by Century Indemnity Company (A CIGNA Company), provides insurance at a very affordable rate for single engine helicopters with a maximum capacity of seven persons, while enhancing safety through regularly scheduled pilot checks and maintenance inspections.

All personal & business flying is covered and most commercial uses including instruction. The program also covers student pilots who are participating in a factory approved training program. There are special sales demo rates for factory distributors/service centers.

Don't wait. Call today (215) 374-4040 OR YOUR BROKER for more information about this cost savings program, or send for FREE KIT.

HAI HELICOPTER HOTLINE HELIPORT DIRECTORY

HAI's Helicopter Hotline offers detailed information on all permanent helicopter landing facilities in the United States and Canada. This heliport database was compiled by HAI in cooperation with Eventide Avionics. It is based on source data from the Federal Aviation Administration's National Flight Data Center (NFDC) and is updated regularly. NFDC reports reflect only those permanent heliports which have been reported to the FAA and do not include temporary heliports or offshore heliports.

Heliport and Helistop Directories are available from HAI. Please see the HAI Publications List for details and prices. Some states and regional associations publish additional heliport data.

To use the HAI HELICOPTER HOTLINE DIRECTORY, have your computer modem dial (703) 683-6488 at 1200 or 2400 baud, 8N1, Log in using your first and last name, then follow these steps to locate your heliport:

STEP 1

(~~~~ THE HELICOPTER HOTLINE ~~~~~)
MAIN MENU

Information Services
A = ASSOCIATION (HAI News & Services)
B = BULLETIN BOARD & Conferences
H = HELP Files & Services
I = INDUSTRY NEWS (Headlines, Events, etc.)
J = JOB FAIR (Employment Services)
L = LEGISLATIVE
N = Regulatory Bulletin (NPRMs, FAA, etc.)
O = OPPORTUNITIES (Contracts, Services)
S = SAFETY Services (Duty Desk,PARs,Tech.Notes, etc.)
T = TRADE FAIR (Helicopters & Parts)
V = VERTIPORT / HELIPORT Database
Functions
D = DOWNLOAD Files U = UPLOAD File
M = MAIL SYSTEM P = PASSWORD
R = REQUESTS & Questionnaires Q = QUIT HOTLINE

Selection: **V**

STEP 2

~~~ HAI HELIPORT DATABASE ~~~~~)
- MAIN MENU -

1 = Display by ID number for Heliport
2 = Display by STATE
3 = Display by CITY
4 = Search by FACILITY NAME Word Fragment
5 = Display Full Heliport Data - straight sequence
9 = Exit Database

Select: **3**

STEP 3

Enter City (or <enter> for all ...): **GARLAND**
... looking for GARLAND

STEP 4

XXX - GARLAND/DFW HELIPLEX - GARLAND TX

type '1' for full info, '9' to exit, <enter> to continue: **1**

----------EXAMPLE----------

GARLAND/DFW HELIPLEX
GARLAND, TX

Ownership Type/Use: PU / PU
Telephone: 214-349-7000
Facility Type: Heliport

Central Business District: 00 mile N
Location: 2559 South Jupiter Road
Garland, TX 75041
Latitude/Longitude: 03251'43N" / 09640'04"W
Lighting Schedule: Dusk to Dawn and IFR WX
Attended: Yes 24 hours
FSS Name: Fort Worth
UNICOM Frequency: 123.05
Markings: 50'tower with multi-color beacon in SW corner
Services:
REMARKS: Pilot's lounge, shower, conference room.
One approach/departure pad, seven holding pads, one "hot spot" at fuel cabinet.

Pad Size: 3 acres

Phone: 1-WX-BRIEF

Fuel: Jet A, 100LL

MEMBER PRODUCT AND SERVICE DIRECTORY

The pages that follow include HAI Associate and Regular Operator member companies that provide certified products, supplies or services to the civil helicopter industry.

This index has been organized alphabetically by the designated products and/or services offered by each HAI member firm. Each product or service "sub-heading" provides an alphabetical listing according to the HAI member's company name.

HAI operator members are noted with a • following their name. The ✉ indicates the telex number and the ✧ indicates the fax number. For additional information on any of the products or services offered by these HAI member firms, please contact the company directly.

HAI Wants You to FLY NEIGHBORLY

What's it all about?

- **Reducing helicopter noise**
- **improving community relations**
- **Achieving public acceptance of the helicopter**
- **Civil and military cooperation**

Started eight years ago, helicopter pilots, managers, operators, and communities throughout the United States have applauded this innovative approach to helicopter noise reduction. Through training, flight operations planning, and sensitivity to community concerns, operators learn how they can contribute to greater public acceptance of the helicopter.

Recognized by the Department of Transportation and the Federal Aviation Administration for organizing and sponsoring an aviation noise reduction program which produces unique benefits to communities worldwide.

Call or write HAI's Director of Heliports and Technical Programs, Ron Bunch, for a copy of HAI's Fly Neighborly Guide and for information on sponsoring or attending a Fly Neighborly Seminar near you.

ORY

Helicopter
Association
International

Alphabetical Listing of Member Operators Worldwide

HAI operator member listings include detailed information on key company personnel, service operations and the make and model of the helicopters in their fleet. The ✉ indicates the telex number and the ✧ indicates the company's fax machine number.

Immediately following the alphabetical directory is the member operator's matrix of services. The vertical axis is organized geographically by state or country, then by city within the state. The horizontal axis alphabetically lists services provided by each HAI member operator.

We recommend the use of HAI member operators whenever possible, as they subscribe to the HAI Code of Ethics, which can be found in the HAI structure and programs section of this Helicopter Annual.

HAI'S 31st SALUTE TO EXCELLENCE AWARDS PROGRAM:

For 30 years, the Helicopter Association International's (HAI) Salute to Excellence Awards program has recognized the dedication, loyalty and excellence of individuals and organizations from every facet of the international civil helicopter industry.

By acknowledging the exceptional merit of an individual or organization, HAI applauds and encourages the continued attainment of higher standards of professionalism.

HAI will accept nominations until October 25, 1991 for the following 12 prestigious awards, to be presented at the 31st Annual Salute to Excellence Awards ceremony in Las Vegas, Nevada.

- ★ Lawrence D. Bell Memorial Award
- ★ Community Service Award*
- ★ Crew of the Year Award
- ★ Excellence in Communications Award
- ★ Helicopter Maintenance Award
- ★ Igor I. Sikorsky Award for Humanitarian Service*
- ★ MBB Golden Hour Award
- ★ McDonnell Douglas Law Enforcement Award
- ★ Outstanding Certified Flight Instructor Award
- ★ Pilot of the Year
- ★ Robert E. Trimble Memorial Award
- ★ Safety Award

***The Community Service Award (a combination of the former Fly Neighborly Award, Raise Your Sites! Award and the Max Schumacher Memorial Award), and the Igor I. Sikorsky Award for Humanitarian Service were introduced in 1990 at the 29th Annual Salute to Excellence Awards ceremony in Dallas, Texas.**

Looking for information on the civil helicopter industry? Helicopter Association International has it! Here's a partial list of the many valuable publications from HAI:

- Rotor Magazine
- The Helicopter Annual
- Operations Update
- The Heliport Development Guide
- HAI Heliport Directory
- HAI Safety Manual
- Visibility Unlimited, a guide to public relations for the helicopter operator.
- Malfunction or Defect Reports
- Preliminary Accident Reports
- Aeronautical Decision Making Manual for Helicopter Pilots
- FAA Interim Guidance for Conducting In-depth Inspections
- Helicopter User's Guide
- Helicopter Operating Cost Estimate Guide

A complete list of publications can be found on page 240.

GIVE YOUR PROFITS SOME EXTRA LIFT.

When it comes to aviation and aerospace insurance, look to the leaders—Alexander & Alexander, Reed Stenhouse and Alexander Howden.

We recognize that these coverages can be extremely complex with catastrophic loss potentials. That's why our clients get individually designed insurance programs.

We analyze your needs and develop comprehensive risk management programs including non-ownership coverage and products liability for every industry sector:

- Helicopters
- Commercial airlines
- Commuter airlines
- Private aircraft
- Fixed base operators
- Charter services

As leaders in loss protection and safety consulting, our specialists work with our worldwide network.

The A&A Group sets the standards in aviation and aerospace insurance, in more than 115 cities throughout North America and more than 70 countries around the world.

For more information, call one of our specialists:

We Need Your
HELP!

To Ensure a Healthy Future for the Civil Helicopter Industry and Profession

HeliPAC

Join with fellow helicopter professionals to support these critical issues:

...Educate Congress and the Administration on issues that threaten the survival of the civil helicopter industry.

...Increase awareness of the important role and value of the helicopter in regional and national transportation systems.

...Demonstrate collective strength and concern among helicopter professionals over changes to laws and regulations governing our industry.

Your support of our effort will ensure a strong message to federal lawmakers concerning issues of mutual interest within the civil helicopter industry.

For more information, please write:

MAINTENANCE MALFUNCTION INFORMATION REPORTING

Service designed to enhance your Maintenance Information needs now on line at HAI for customized analysis of trends

Why use the MMIR system?

The computerized MMIR system gives you the ability to analyze:

- **Component Malfunctions for a specific Airframe Model**
- **Component Malfunctions within a given A.T.A. Code (Chapter and/or Section)**
- **Complete Airframe Malfunction History**
- **History of Corrective Actions for a given Problem by Component, A.T.A. Chapter/ Section or Airframe**

Get the information you need to make that decision quickly and accurately!

Pilots, Mechanics, Technicians ... You're invited to join HAI!

HAI individual membership is offered to industry professionals — pilots, mechanics, and licensed technicians — who are employed by or associated with an HAI member organization. Pilots and mechanics employed by a government entity or the military services are also eligible to join.

If you are a pilot, or licensed mechanic/technician, HAI Individual Membership is a valuable opportunity for professional growth and career advancement.

For just $35 each year, HAI can put you in touch with the news, events, and happenings in the helicopter industry. As an individual member, you receive:

- *The 1991 Helicopter Annual*, the industry's reference guide for helicopters, avionics, statistics, government contacts and more. PLUS, you will be listed in the 1992 edition as a member in good standing.
- *ROTOR Magazine*, HAI's quarterly publication that features industry leaders, profiles HAI members, and reports new products, safety information, regulatory news and more.
- Substantial discounts on all HAI publications, seminars and meetings including HAI's HELI-EXPO '92, CFI Refresher Course, and Maintenance/Safety Management Seminars. These and other HAI meetings are geared specifically to your needs as a helicopter professional.
- HAI's *Helicopter Hotline*, a computer bulletin board with full-time access via modem, contains job listings, contract opportunities, safety information and much more.

Helicopter Association International

- Plus, *HAI's Staff* of dedicated professionals provides expertise, guidance and advice on an array of issues, including regulatory, safety, management, and airworthiness.

Whether you want to improve your skills, advance your career, or network with your peers, an HAI Individual Membership means business for professionals who are serious about their careers in the civil helicopter industry.

Act Now! Join HAI Today!

Just complete the application below and mail to:
Helicopter Association International
1619 Duke Street
Alexandria, VA 22314
Make check or money order payable to HAI, or use MasterCard or Visa. Payment in U.S. funds.

HAI Individual Membership Application

Yes! I want to join the Helicopter Association International as an Individual Member.

NAME _____

ADDRESS _____

CITY _____ STATE _____ ZIP _____

COUNTRY _____ TELEPHONE (H) _____ (W) _____

EMPLOYER _____

TYPE OF MEMBERSHIP: ❑ PILOT or ❑ MECHANIC/TECHNICIAN

To qualify as an individual member, you must be employed by or associated with an HAI member organization in good standing. Additionally, individuals employed by a government entity or the military services, in the capacity of pilot or mechanic, are eligible for HAI membership under this category. Annual dues are $35.00 and are not deductible for tax purposes but continue to to be deductible as a business expense.

Payment: ___MasterCard ___Visa Credit Card # _____ Exp _____

Directory of HAI Associate Members

The following is an alphabetical listing of HAI Associate members that provide certified products, supplies or services to the civil helicopter industry and/or are lessors of helicopters. The ✉ indicates the telex number and the ✧ indicates the company's fax number.

A. Biederman, Inc.
P.O. Box 25003
Glendale, CA 91201-3095
☎ 818-246-8431 ✉ 315994 ✧ 818-243-8965
President: Richard Rockwood
Vice President: Steven W. Williamson
Director of Purchasing: Peter J. Maher
Services: Sales and service of aircraft and industrial instrumentation.

A/C Fuel Cells Worldwide, Inc.
P.O. Box 171833
Memphis, TN 38187-1833
☎ 901-767-5154 ✧ 901-767-5156
President: Lance Forsdick
Executive Vice President/General Manager: Charles L. Lanza
Services: FAA repair station specializing in the repair, overhaul, and remanufacturing of fuel cells for fixed and rotary wing aircraft. Also, repair and overhaul of helicopter floats and sales of new fuel cells and helicopter floats.

A. E. Petsche Co., Inc
2112 West Division
Arlington, TX 76012
☎ 817-461-9473 ✉ 910-8904905 ✧ 817-277-2887
President: Arnold E. Petsche
General Manager: Roger Studer
Division Manager: Byron Wilson
Services: Worldwide distributor of high temperature wire, cable and associated products specifically designed for the aviation and aerospace industry.

ACES Systems Division
Technology for Energy Corp.
1884 Eastman Avenue
Suite 102
Ventura, CA 93003
☎ 805-642-6282 ✧ 805-642-6349
Vice President - Division Manager: Jack E. Foster
Technical Support Representative: Scott H. Foster
Services: ACES Systems Div. - Vibration analysis/balancing equipment for turbine engines and rotors. Vibration, balancing and related consulting services including trend monitoring.

Accessory Service Inc.
25139 Avenue Stanford
Valencia, CA 91355
☎ 805-257-2217 ✉ 662630 ✧ 805-295-5113
President: James L. Durbin
Vice President, Operations: Robert M. Clemens
Vice President, Marketing and Sales: Sam Summers
Sales Administrator: Katherine P. Rudolph
Services: Manufacture, repair and overhaul of hydraulic system components. HR Textron authorized service center.

Accu-Line
5103 Kingston Pike
Knoxville, TN 37919
☎ 615-588-2755 ✧ 615-588-2741
President: Elmer ("Doll") Thompson
Vice President: Steve A. Petrone
Services: Distributor for Brother P-Touch III electronic hand-held labeling system.

Action Aircraft Parts
2550 Electronic Lane
Suite 206
Dallas, TX 75220
☎ 214-351-1284 ✧ 214-351-1286
President: Mary Pendleton
Services: Allison engine parts sales and support to the helicopter industry.

Aero Aire Corporation
376 Patricia Avenue
Dunedin, FL 34698
☎ 813-736-2587 ✧ 813-736-1143
President: Michael F. Glass
Vice President/General Manager: Paul C. Slakie
Services: Design and manufacture of air conditioning and heating systems for military and commercial applications.

Aero Planning International Inc.
P.O. Box 455
McMinnville, OR 97128
☎ 503-471-1234 ✧ 503-472-1234
President: Harold D. New
Secretary: Gordon Jacobson
Vice President, Sales & Marketing: Dick Magers
Public Relations: Hank Ross
Services: Aero Planning International specializes in helicopter sales, EMS consulting, leasing, finance appraisals and helicopter financing.

Aero Quality Sales
P.O. Box 10377
Stamford, CT 06904-2377
☎ 203-351-8300 ✉ 4750060 ✧ 203-351-8305
Vice President: John Downey
Marketing Services: Elizabeth Walker
Services: Authorized distributor of aviation batteries, battery servicing equipment, and ground support equipment.

Aero Seats and Systems Inc.
6801 Exchange Drive
Mansfield, TX 76063
☎ 817-473-8844 ✧ 817-473-6190
President: S.I. Crouch
Vice President: Richard Crouch
Services: Design and manufacture of aircraft seats and other systems; i.e. camera mounts, shoulder restraints, antenna deployment systems, EMS systems, skid gear and bonded panels.

Aero Support Inc.
44 Hudson Street
New York, NY 10013
☎ 212-608-8850 ✉ 852761 ✧ 212-608-8852
President/CEO: Zvi Bar-On
Vice President, Marketing: Moti Markowicz
Operations Manager: Pamela Capper
Marketing Manager: Michael Navon
Services: Distributor/stockist for the G.E. T-58 engine spares.

Aero-Marine Technology, Inc.
1441 E. 28th Street
Long Beach, CA 90806
☎ 213-595-8207 ✧ 213-595-8207
President: Albert T. Torre
Sales Representative: Linda Viall
Engineering: Robert W. Perkins
Engineering: Ward Spoonemore
Services: A sales and service company specializing in satellite communications and navigation systems for aircraft and commercial ocean vessels. Sell Magnavox, Magellan, and Trimble and manufacture some accessory devices for these systems.

Aeroflash Signal
1715 West Carroll Avenue
Chicago, IL 60612-2503
☎ 312-733-3513 ✧ 312-733-0192
President: H. James Murray
Vice President/General Manager: Cari A. Murray
Public Relations: Monica Pesole
Services: Manufacturers of navigational and anti-collision lighting for aircraft and helicopters in general and military applications. (FAA approved).

Aeroflight Publications
P.O. Box 854
Gruver, TX 79040

HAI Wants You to FLY NEIGHBORLY

What's it all about?

•Reducing helicopter noise
•improving community relations
•Achieving public acceptance of the helicopter
•Civil and military cooperation

Started eight years ago, helicopter pilots, managers, operators, and communities throughout the United States have applauded this innovative approach to helicopter noise reduction. Through training, flight operations planning, and sensitivity to community concerns, operators learn how they can contribute to greater public acceptance of the helicopter.

Recognized by the Department of Transportation and the Federal Aviation Administration for organizing and sponsoring an aviation noise reduction program which produces unique benefits to communities worldwide.

Call or write HAI's Director of Heliports and Technical Programs, Tom Bunch for a copy of HAI's Fly Neighborly Guide and for information on sponsoring or attending a Fly Neighborly Seminar near you.

Helicopter Association International

JOIN THE WORLD OF HAI...

Since 1948, the Helicopter Association International (HAI) has brought together the leaders of the civil helicopter industry. Our membership includes helicopter operators and owners, users, manufacturers and suppliers, service organizations, and individuals interested in following the events of the commercial helicopter industry. Members are classified according to their roles in the industry.

Listed below are our membership classifications. Where do you belong?

REGULAR MEMBERS

Regular (voting) members are organizations which operate civil helicopters as a principal business, in private use as a business tool, or in public service.

Classifications include Commercial, Corporate/Private and Public Service Operators.

Annual dues for Regular Members are based upon the number of helicopters operated.

1 helicopter	$275
2	$450
3-5	$550
6-19	$675
20-39	$1,100
40 or more	$1,550

ASSOCIATE MEMBERS

Associate members provide certified products, supplies or services to the civil helicopter industry and/or are lessors of helicopters, rather than an operator.

Annual dues for Associate Members are based upon the gross revenue of the company or division applying for membership.

Associate A - A prime airframe, rotor, or engine manufacturer directly engaged in the manufacture or development of helicopters, rotors, helicopter equipment, and offering a certified product to the industry.

A-1 — $100M or more	$11,000	A-3 — $15-$50M	$6,600
A-2 — $50M-100M	$7,700	A-4 — $15M or below	$4,950

Associate B - Manufacturers and suppliers of products and services other than as applicable to Associate A.

B-6 — $5M or more	$1,100	B-8 — $251K- $1M	$675
B-7 — $1M-5M	$900	B-9 — $250K or less	$250

SUSTAINING MEMBERS

Any individual interested in following the events of the commercial helicopter operating industry, providing he does not earn over 50% of his livelihood from civil helicopter operators, or he is not an officer, director, or employee of a firm that would qualify for Regular or Associate membership.

Annual dues for Sustaining Members are $50.

PILOT, MECHANIC/ TECHNICIAN MEMBERS

This individual membership category is offered to industry professionals--pilots, mechanics and licensed technicians--who are employed by or associated with an HAI company. In addition, individuals employed by a government entity, or the military services in the capacity of pilot or mechanic, are eligible for HAI membership under this category.

Annual dues for pilots, mechanic/technicians are $35.

STUDENT MEMBERS

A Student Member is any individual interested in following the events of the civil helicopter industry who is a full or part time student in a flight training or A&P school, or a college or university.

Annual dues for Student Members are $30.

AFFILIATE MEMBERS

Affiliate Members are national, regional and international organizations whose purpose and interests are similar to those of HAI. Affiliate Members do not pay dues.

For information on becoming an HAI member, please return the postage paid card at the center of the book.

Directory of Affiliate Members

The following alphabetical listing of Affiliate members contains national, regional, and international organizations whose purposes and interests are similar to those of HAI. The ✉ indicates the telex number and the ✧ indicates the organization's (fax) machine number.

AVIATION INSURANCE THAT MAKES THE POSSIBLE...PRACTICAL

Call Larry Mattiello, toll free, for a no-obligation coverage review.

Innovations in equipment, innovations in service. Aviation is a tough business, one that requires a commercial operator to constantly look for new ways to get the job done faster, safely, more comfortably, and with little or no increase in overhead. Your insurance coverage should play a big part by giving you the latitude to change and grow to meet the challenges of competition.

Alpha-designed and managed coverage programs have been proven to balance minimum risk with minimum cost for helicopter operators nationwide. As representatives of the finest domestic and international aviation insurance companies, Alpha's rotary-wing specialists can provide you with a comprehensive program that covers aircraft, ground equipment, facilities, passengers and cargo.

Directory of HAI Individual Charter, Pilot, and Mechanic/Technician Members

HAI's individual pilot and mechanic/technician category is offered to industry professionals — pilots, mechanics and licensed technicians — who are employed by, or associated with, an HAI Regular or Associate member company. In addition, individuals employed by a government entity in the capacity of a pilot or mechanic are eligible for membership under this category.

The below listings are arranged alphabetically by the individual member's last name and includes an address, phone number and an employer/company affiliation reference. If you qualify under this category and are not already listed, please consider signing on as an individual pilot or mechanic/technician member of the HAI. Please fill out the application form on page 111.

Honorary Members *

Individuals who have distinguished themselves to a significant degree through efforts directed toward the advancement or improvement of the commerical helicopter industry. Honorary members shall hold membership for life.

Theodore E. Dumont
Joseph Mashman

**All Past Presidents/CEO's are Honorary members of HAI.*

Chairman's Message

Matthew S. Zuccaro

Mr. Zuccaro is currently President of Zuccaro Aviation, Inc., a New York-based commercial helicopter company which provides on demand charter and aircraft management services throughout the New York City and Tri-state area. He is also President of Zuccaro Industries, Inc., which specializes in aviation consultation.

Mr. Zuccaro received his initial helicopter training as an Army Aviator and served a tour of duty in Vietnam with a subsequent assignment as a flight instructor at Fort Rucker, Alabama.

For the past 20 years he has been an active participant in the New York helicopter industry. During this period he has served in senior management and executive positions with a number of varied operations providing executive charter, scheduled airline service, aircraft management and public service operations.

He is an Airline Transport Rated pilot and Instrument Flight Instructor in both Fixed Wing and Rotorcraft, and is the recipient of HAI's 10,000 hour Pilot Safety Award.

"PEOPLE AND HISTORY, THAT'S WHAT IT'S ALL ABOUT"

I am not sure if anyone really knows what a chairman's message is, or what it's supposed to convey, including me. Is this the part where I am supposed to express my infinite wisdom regarding the future of our industry? If so, I think I'll pass until I can find a foolproof crystal ball and control all the variables. Should I point out all the wonderful things helicopters can do and how far we have advanced? I don't think so, considering most of you reading this are veterans of the industry and already know these facts. Maybe I should review the various tasks and programs being performed by HAI staff. Scratch this one, I just read the President's Message, by Frank L. Jensen, Jr., and, as usual, he did an excellent job of covering HAI's activities.

So when all is said and done, what timely, important topics should I discuss? Glad you asked. How about people and history? What , you say, no statistics on the latest and greatest technology? Not even a short sentence on the business aspects of our industry? No, just people and history, because that is what vertical flight is really all about.

In the normal day-to-day grind of operating helicopters we tend to lose sight of the people involved and our heritage as an industry. During my tenure as a Board member of HAI, my greatest reward has been to meet so many of the people currently involved in this industry, as well as many individuals who actually created it through their efforts.

I have been fascinated by accounts detailing the flights of autogyros from the roof of the downtown Philadelphia Post Office building in the 1930's. By stories relating the activities and efforts of Don Juan de la Cierva and Harold Pitcairn. The planning, building and test flying of various helicopter designs during the 1930's and 40's, such as Bell, Brantly, Hiller, Piasecki and Sikorsky, just to name a few. I listened intently to stories outlining the bending of metal tubes, the stretching of canvas cover and cables, and the adaption of automobile engines for vertical flight. Tales of men and women who, after designing and building these new air vehicles, wondered whether their inventions would survive the first few seconds of flight. Even more astounding were the tales of that amazing group known as the world's first helicopter pilots. An interesting point to note is that many of the original helicopter pilots were, in fact, the inventors themselves. Talk about faith in your ideas! Let us stop and consider a few interesting points. Their aircraft had never been flown before; did not have the advantage of computer-assisted design and wind tunnel testing; and there was no such thing as a helicopter flight instructor, much less a flight simulator. Their courage, dedication, and tireless efforts were founded on nothing more than a desire to achieve vertical flight, which is something we take for granted today.

The best part about my experience was the fact that I was actually talking to the individuals who did these things. It amazes me that they were conducting their work before many of us were even born, let alone operating helicopters. We are fortunate enough to still have the chance to meet and learn from these individuals who provided us the opportunity to pursue our own dreams through the use of their machines. To not preserve the wealth of knowledge and heritage available to us from our past would be a grave injustice to our future industry.

Which brings me back to my original topics, people and history. We should support the efforts of such groups as the Helicopter Foundation International. This group is endeavoring to collect, catalogue and preserve the essence of our beginnings, to educate the society of today. Your assistance with such programs will benefit us all, and be very self-rewarding as well.

I would also urge you to take a moment from your busy schedules, stop, and just talk to each other. I think you will quickly discover that our industry is not about aircraft, systems, heliports or regulations, nor dreams of potential wealth. What it is about is *people*, and the same passion and desire they share with those early pioneers who started us down the path of vertical flight.

The essence of the helicopter industry is comprised of maintenance technicians, pilots, flight operations personnel, administrative support staff and the many other dedicated individuals who have made helicopters a part of our everyday lives.

Someone recently remarked to me that it must be interesting, as HAI's Chairman, to be involved in the many meetings, seminars and conferences relating to our industry and its future. I responded that it certainly was an honor, of the utmost importance, and that I truly enjoy it. I also confessed that there were several other meetings, I would have given anything to have attended. One such meeting took place in 1943. It was the delivery of the first helicopter ordered by the United States Military at Wright Field in Dayton, Ohio. The two men present were Orville Wright and Igor Sikorsky.

I urge you to learn from the past, and discuss the present, if you intend to be part of the future.

President's Message

Frank L. Jensen, Jr.

Frank L. Jensen, Jr., *HAI President, has been with the Association nine years, first as Executive Director and now as President. A helicopter pilot since 1955, Jensen has a MS degree in Aerospace Systems Management from the University of Southern California. His aviation experience includes thirty one years as an aviator, with commercial ratings in helicopter, fixed-wing, single and multiple engine, rotorcraft and instruments, as well as certification as a parachutist.*

Jensen, a veteran of Korea and VietNam, retired from the Army with the rank of Colonel in 1974. In 1981, Jensen was awarded the Department of the Army's Outstanding Civilian Service Medal, and a Department of Transportation Commendation.

HAI...has *plenty* to do, thank you!

For starters, let us define "HAI" a bit more precisely. Here, I am referring to the infrastructure comprising HAI's elected leaders (Board of Directors); its committees, and the staff.

Now, let us establish that "HAI", as defined above, has plenty to do. We need not go out in search of causes to support, courses to conduct, or even battles to fight. These are brought to us in great measure. Sometimes the source is a single member, or a group of members, or even segments of the industry which are not members of HAI. Many of HAI's "challenges" come from a governmental agency, ie., the Department of Labor, or the IRS.

Often, the challenges handed to HAI are very time-sensitive...the issue must be resolved *right now!*, or there will be serious consequences for the entire membership. At other times, we have longer to work the problem, but considerable expense is involved...or heavy commitment of manpower, or other resources.

How does HAI address these challenges? How do we react to the steady stream of requests, pleas and even demands for assistance? There is an Annual General Membership Meeting once a year, on the first day of Heli-Expo. The Board of Directors meets three times during the year—during Heli-Expo, in June, and in October. They meet for two days at a time, and have a full agenda which deserves (and receives) the full attention and consideration of each member of the Board. Each HAI committee meets once or more per year, and, depending on the particular committee, has an agenda and devotes energy and professional knowledge to address the issues at hand. Like the members of the Board, committee participants serve at their own expense, with no reward other than the altruistic realization that they are serving the industry and the general public. That leaves the staff, to react to day-to-day, real-world requests for timely assistance.

The HAI staff consists of twenty highly-motivated and competent individuals, most of whom have standing commitments which more than occupy the supposedly typical 40-hour week. (Most HAI staff members work much more than 40 hours each week.) Some of these standing commitments are:

- Preparation for and conduct of Heli-Expo, which is the major event in the entire world for civil helicopters. It is listed among the largest 200 trade shows in the USA, and requires the full-time efforts of at least two of HAI's professional staff. In addition, *everyone* on HAI's staff spends at least part of their working time in support of the trade show. And the entire industry benefits...with some 10,250 professional registrants at the most recent Heli-Expo in Dallas, TX. Heli-Expo is also the source of 60% of HAI's revenue, which enables HAI to accomplish its work on behalf of the membership and entire industry.

- Preparation for and conduct of the professional development courses and seminars which are conducted during the week prior to Heli-Expo. These courses are conducted in cooperation with four major educational institutes and others, and provide the single most important source of such training for helicopter professionals in the entire world. Again, a finite amount of staff time is dedicated to these courses, as well as the voluntary time and expense of HAI committees and other volunteers.

- Publication of the Helicopter Annual, which has, in eight years, become a major source of information on the entire industry. A considerable amount of staff time goes into preparing the Annual....which is usually about 250 pages in size, and of which about 15,000 copies are printed.

- Publication of ROTOR magazine, which has, in three years, also become an industry standard. This 48-page, four-color magazine is printed in 15,000 to 25,000 copies per issue, and requires quite a bit of staff time and energy. Both ROTOR and the Annual are published by the HAI staff "in addition to other duties."

- Publication of HAI's Operations Update, Malfunction or Defect Reports, Preliminary Accident Reports, etc.

- Support of meetings of the Board of Directors, Executive Committee and other related meetings. This important function involves preparation of information material for these meetings, which, in the case of the Board, is quite voluminous. There is also other staff work, and travel time. The preparation and distribution of minutes of Board meetings is also time-consuming. In all, the support of meetings requires the equivalent of two to three full-time staff persons.

- Participation in seminars, helicopter appreciation days, meetings of affiliate members, etc., which are almost always on weekends. These opportunities are shared among three of the staff, ie., Glenn Leister and Ron Bunch and me.

- Review of documents circulated by regulatory agencies, ie., Advanced Notices of Proposed Rule-Making (ANPRM's); Notices of Proposed Rulemaking (NPRM's); draft advisory circulars, etc. Many of these documents are voluminous, and highly technical, requiring considerable amounts of attentive reading.

- Normal correspondence/telephone communications with members and other important elements of the industry, both domestic and otherwise.

Presidents Message

The list goes on and on, but I will stop at this point. Quite frankly, the foregoing takes up just about the totality of so-called "normal" work times for the entire staff. On top of that, we have to react to the following important situations:

- A private helicopter operator is being charged with careless and reckless flying and endangerment of neighbors, because he or she "flew low" over the residential area while on approach to a designated landing area.
- The paid executive of a township in a major urban area would like assistance in studying the feasibility of a public-use heliport in his township. The township council meeting is tonight.
- A major newspaper, magazine or TV network publishes an article critical of helicopters, and HAI gets called by several members to "demand" equal time for rebuttal.
- There is a helicopter accident somewhere in the world, perhaps involving a celebrity, and HAI gets flooded with calls from the media for statistics, technical information, and "sound bites."
- Several people call HAI, wanting to know how they can become helicopter pilots. Another person calls, wanting information on purchasing a helicopter for business/personal use. Another person calls asking how they can build up their helicopter time..they have 50 hours, and can't find a job. Two more people call to register complaints about low-flying helicopters. All of these calls come in at the same time.
- Three consultants call, all on contract and none members of HAI, wanting us to provide them with data so that they can complete their contracts. For free, of course.
- We receive a 60-page draft inspector's manual from FAA, which must be reviewed and commented on within two working days.

Sandwiched in between the "routine, continuing" tasks described at the beginning of this article, and the ad hoc, short-fuse "challenges", the HAI staff attempts to develop and provide practical and meaningful services to the industry, and particularly to the membership. Some of those efforts which have been successful include:

- HAI, in cooperation with AHS, APA, FAA and NASA, has just conducted a three-day Conference on Rotorcraft Transportation Facilities in Philadelphia, PA. This was a very important conference, with well over 100 professional registrants, many of whom were important leaders in municipal and state transportation planning.
- HAI worked closely with top leaders at the FAA to bring about a review of FAA's policies and practices concerning regulatory enforcement. HAI also sought and obtained the cooperation of other major aviation trade associations in this effort, and the results were a major policy statement by FAA Administrator Busey which calls for the FAA to emphasize *compliance* as a means to gain industry adherance to regulations.
- HAI participated with other major aviation trade associations to prevail upon the U S Congress to not levy a "luxury tax" on aircraft, including helicopters. This effort was successful.

Some important HAI efforts which are continuing to be developed, but have not yet realized their full potential to serve the industry include:

- The Maintenance, Malfunction, Information Report system, or MMIR. Started in 1987, after a survey revealed that only about 15% of all "Service Difficulties" were being reported by operators, the MMIR system incorporates a one-page, self-carboning form which has been accepted by FAA in lieu of the Service Difficulty Report (SDR) Form. The Universal MMIR form also replaces the warranty claims form of most of the airframe manufacturers, and greatly simplifies the process of either filing warranty claims or reporting service difficulties, or both. HAI has now received some 7,500 completed MMIR forms, and has so far entered 6,000 in a computer data base. Some computerized analysis of this data is already possible, but there is still more programming work to be done. When complete, the MMIR will be of great benefit to the entire industry.
- The Helicopter Hotline. This is a computer bulletin-board which is especially designed to serve the civil helicopter industry. Like many HAI programs, the Helicopter Hotline is a bare-bones, low-budget effort. In spite of that, it is available without charge 24 hours a day, 7 days a week, and contains a wealth of information. There really is no comparable service anywhere, dedicated exclusively to civil helicopters. We are continuing to work towards a fully-functional system that will be of great value to the industry.
- An in-depth survey of civil helicopter operators to develop industry-wide values and direct-operating costs. HAI is working with an independent, highly-regarded firm to collect, collate and analyze the reports. At this writing, we have received just over 100 complete reports from operators, which is a minimally-adequate number upon which to base our conclusions. We expect to have a preliminary report available by Heli-Expo '91, and we intend to follow up on this effort to provide necessary fiscal and related information (which has *never* been available) to the operators and others in this civil helicopter industry.

Also, HAI, although not a participant in the workings of ICAO's HELIOPS Panel, has disseminated information (through ROTOR magazine and other means) concerning the work of the HELIOPS Panel. HAI is now working with other helicopter interest groups, notably the European Helicopter Association, in an attempt to reach general agreement on a realistic course of action to minimize any potentially harmful effects of the recommendations of ICAO's HELIOPS Panel.

In this President's Message, I have attempted to provide some insight into HAI's resources, and how they are utilized. Much of the work that HAI does is not glamorous. It is typical trade association work...behind-the-scenes, pick and shovel work. But it is *all* aimed at advancing the civil helicopter industry.

Code of Ethics for Members

HAI has established technical, insurance, and business standards that assure users of HAI member companies that services are properly and safely conducted. These standards are declared in the HAI Code of Ethics and are designed to promote the good names of HAI members and to protect their reputations.

ARTICLE I

Purpose

It is the purpose of this Code of Ethics to establish certain minimum standards in order to foster public confidence in the safety of helicopter operations and the integrity of HAI Members and to protect the reputation and good name of the helicopter industry. The Association does not deal with prices, territories or in any manner attempt to restrain trade or free enterprise.

In order to promote these objectives, each Member subscribes to the following code:

ARTICLE II

Technical Standards

a. Flight: Flights will be made in accordance with appropriate government regulations. In addition, a Member's pilots will exercise their best judgement to ensure a maximum safety factor at all times.

b. Flight Personnel: A Member will employ and assign to each flight only pilots who hold current certificates of qualification.

In addition, the Member shall be satisfied, either through training provided by his organization or by review of the pilot's experience, that flight personnel are familiar with the type of work to which they are assigned and are capable of completing it satisfactorily.

c. Maintenance: Maintenance on a Member's aircraft shall be performed in a manner that conforms to appropriate regulations. Members will not use parts or materials of unknown origin or time or of doubtful specification. Maintenance personnel shall not approve any aircraft for flight unless they are personally satisfied that the equipment is airworthy.

d. Equipment: A Member shall operate any aircraft of his choice, except that every aircraft must be in airworthy condition. In addition, a Member will not attempt to use for a given job a helicopter which, because of special conditions -- such as altitude, temperature, payload requirement, etc. -- is unable to perform the work safely and acceptably.

ARTICLE III

Insurance

Members shall carry liability insurance covering their flight operations in amounts sufficient to provide adequate and reasonable protection to passengers and to the public against liability arising from such operations.

ARTICLE IV

Business Standard

HAI Members shall maintain business standards which match the high technical requirements of the industry. While recognizing that it is impossible to enumerate all the attitudes and factors which comprise good business ethics, Members recognize certain areas in which positive principles do apply.

a. Advertising: A Member's advertising shall be truthful and shall accurately represent the services he is able to offer.

b. Financial: Since financial stability is the hallmark of a leading company in any industry, Members will exert every effort to anticipate their financial obligations and to meet them promptly when due.

c. Sales: In selling equipment or parts, or in selling helicopter services to industrial, governmental or private customers, Members will present a truthful representation of the equipment or service being offered.

ARTICLE V

Implementation

The HAI recognizes that it has no legal right to enforce the minimum standards outlined above, even though the technical standards have already been formally established by existing governmental regulations.

The Association has every right, however, to limit its Membership to those who are in sympathy with its objectives.

Therefore, since a procedure for implementing this Code is desirable, the basis for such a procedure will logically hinge upon Membership in HAI.

When a person, partnership, corporation, association or other business entity applies for Membership in HAI, it is assumed that adaptation of the Association's standards is both implied and existent. At some later date, should a Member reportedly violate the Association's Code, review of his alleged violation(s) is in order by the Ethics Committee, which will make recommendations to the Review Board.

The HAI Board of Directors is hereby established as a Review Board. The Chairman of the HAI Board shall act as Chairman of the Review Board.

The complainant against the Member must present to the Review Board tangible evidence of violation. The defendant shall have every chance to review the charges and to present his side of the case to the Board.

The Board's decision shall be final with regard to disciplinary action when a violation is determined to have occurred. The Board's action may range from issuing a warning to revoking the violator's Membership in the HAI (without refund of dues).

ARTICLE VI

Modification

The Code of Ethics outlines herein shall be subject to modification or elaboration as the needs of the industry shall require.

Helicopter Association International Staff

Frank L. Jensen, Jr., *President*

Helicopter Annual 1990 Year in Review

1990 was an exceptional year of accomplishment for the Helicopter Association International, its Board of Directors, Committee Chairmen, Special Advisors and professional Staff. The "Year in Review" encapsulates important accomplishments performed by the aforementioned on behalf of the civil helicopter industry.

January

HAI's Heli-Expo '90 attracted 10,258 professional registrants to the Dallas Convention Center. This number was the largest recorded at HAI's annual meeting in at least seven years.

More than 275 companies exhibited at the show. Highlights included: a gathering of more than 2,500 members of the public, during a very blustery morning at Love Field, during the Fourth Annual Public Awareness Day; participation by more than 100 helicopters, including ships at the fly-in and on display on the floor of the convention center; HAI's second annual press conference; a highly successful "Rotorcraft Roundtable"; and a host of HAI committee meetings and educational safety management and flight instructor courses.

Of special note was the fly-by of the McDonnell Douglas NOTAR, and the landing of the Bell/Boeing XV-15 tiltrotor outside the Dallas Convention Center prior to the opening ceremonies. New to Heli-Expo '90 was the Visitors' Television Network (VTN) which was well received. VTN interviews were broadcast in guest rooms, hotel lobbies, and throughout the convention center.

Civil helicopter industry professionals, family and friends recognized HAI's 1989 award winners at the 29th Annual "Salute to Excellence" awards banquet. In addition to HAI's regular 12 award winners, special presentations were made to: Duane Moore who received the FAA's "Award for Distinguished Service"; General George Putnam, who received an award from Bell Helicopter Textron for his support of the U.S. Precision Helicopter team; and HAI recognized that team by presenting an award to its commanding officer, Lt. Colonel Robert E. Harry.

One of the special events at Heli-Expo '90 was the Helicopter Foundation International's "Chili Cookoff" which attracted 3,500 participants. CEO's from major airframe manufacturers served up 12 of their own special brands of chili to enthusiastic guests one of whom won a raffled BMW motorcycle. HAI congratulates Jim Hamilton, Bell Helicopter, HFI Chairman, and Pat Butler, Bell Helicopter, and the many persons within the industry who helped make this event a great success through their energy and initiative.

During this extra-busy month, HAI Chairman Fred A. Moore participated in the annual meeting of the Transportation Research Board as well as a meeting of the Civil Rotorcraft Initiative's steering committee. Moore also met with his AHS counterpart, Stan Martin, and they agreed that it is important for them, and their successors, to meet several times a year to discuss programs of mutual interest.

HAI President Frank L. Jensen, Jr. was a panelist at an Aero Club of Washington luncheon addressing the outlook for aviation in the 1990s. Jensen and Ronald C. Bunch, HAI's Director of Heliports and Technical Programs, also attended the ROTAF meeting where much of the activity discussed was HAI-originated.

February

HAI's Board of Directors met and, among many agenda items, heard a briefing by Brandon Battles, Economics Committee Chairman, about developing an industry ratio on operating costs.

The Board met with the FAA's Certification Management Team to increase rapport between HAI's elected leaders, and the FAA.

The Board also met for the sole purpose of electing officers whose terms would begin July 1, 1990. Matthew Zuccaro, Zuccaro Aviation Inc., succeeded Fred Moore as chairman; Robert Fox, Hillcrest Aviation, was elected vice-chairman; and Robert McNab, Edwards and Associates, was elected treasurer. Larry Mattiello, Alpha Aviation Inc., was re-appointed insurance representative.

Also this month, HAI's Jensen and McNab met with Miami Beach and Dade County officials regarding a rooftop heliport on the parking garage to be constructed adjacent to the Miami Beach Convention Center. They also attended the opening ceremony for Crescent Airways' hangar (48,000 square feet) at North Perry.

Jensen attended the annual meeting of the Alaskan Air Carriers Association at which he was keynote speaker. Jensen and Bunch attended a meeting of the Executive Committee of the FAA/AHS/HAI Partnership along with the FAA's Phil Woodruff and AHS' John Zugschwert.

HAI's Director of Safety and Flight Operations, Glenn Leister, attended the FAA-sponsored General Aviation National Air System Plan review in Oshkosh,WI.

Jensen and his Executive Assistant, Elizabeth Meade, attended a meeting with Sealander Brokers (Washington Vertiport, Inc.) to discuss an inner-city helicopter training facility.

March

HAI's Jensen, Leister, Bunch, Anna Minaya, Legislative Manager, and Bill McKenna, Legislative Advisory Committee Chairman, attended a special briefing by FAA Administrator James Busey at which he announced his decisions on the recommendations of the Safety System Evaluation Review. This was a major success for HAI, and the general aviation community, and followed more than two years' concerted effort to have such action taken by the FAA.

HAI also conducted, was represented at, or participated in the following events: a meeting with executives of the U.S. National Guard Bureau to discuss current National Guard conduct of drug enforcement flying; the FAA's Annual Aviation Forecast; a briefing by the Office of the Secretary of Transportation, Samuel Skinner, on the newly announced National Transportation Policy; a meeting of aviation public relations officers; the Eastern Region Helicopter Council's "Big Apple Super Safety Seminar"; a meeting with the Deputy Assistant Secretary of Commerce; an aviation industry/FAA meeting on the hazards of "tall towers" near airports and airways; a meeting with AHS Executive Director Zugschwert; a meeting of FAA's Matrix Management Group to discuss the civil tiltrotor; and a special briefing on the NAS Capital Investment Plan status by the principal contractor to the FAA.

April

HAI's Executive Committee had a full agenda during its meeting at MBB Helicopter Corp. headquarters in West Chester, PA. In addition to the specified agenda items, the Executive Committee toured: MBB's facilities and received demonstration rides in the company's BK-117s; Keystone Helicopter Corp.'s facilities and met with company chairman Peter Wright, Sr.; Agusta Aerospace Corporation's facilities and met with President Giuseppe Orsi; and they toured Boeing Helicopters' facilities and met with company vice president John Hayden. (The Executive Committee also saw a demo flight by a V-22, which was at 42,000 lbs., and flew by at 170 knots).

In other actions, HAI's Bunch spoke at a heliport development seminar hosted by the Helicopter Association of Florida; Vice-chairman Zuccaro met with a delegation from Japan Heli-Network during their visit to the U.S.; HAI's Director of Member Services, Daniel Warsley, and communications assistant, Carolyn Vujcec, met with PRAC Chairman Lynda Kate, at MBB Headquarters, to discuss HAI's public relations goals; Jensen, Warsley,

Exposition Manager Alec Dickey and financial manager Henry D'Souza held their monthly marketing meeting with New Venture Consulting, HAI's outside marketing associates.

HAI's Jensen testified before a Congressional Subcommittee on behalf of the XV-15 civil tiltrotor and, with Leister and Minaya, watched a fly-in and landing of that ship on the parking lot of the U.S. Capital; Leister attended a Fly Neighborly and Safety Seminar in Portland; Bunch attended the American Planning Association's Annual Planning Conference and briefed the group about HAI's October Rotorcraft Transportation Conference; Leister, Warsley and HAI's Membership Manager, Kate Miller, attended the AAMS annual meeting; and Bunch attended the Helicopter Safety Advisory Conference's quarterly meeting at which emergency response requirements, hazardous materials, weather services, and other issues affecting safety in the Gulf, were discussed.

The Spring issue of ROTOR magazine "By the Industry and For the Industry" was edited, laid out, designed, desktopped and published by HAI's Warsley, Ed DiCampli and Jim Brown. Advertising revenue increased 50% from the Spring, 1989 edition.

May

HAI participated very strongly in AHS' annual forum by: conducting a civil operators' session; conducting a meeting of HAI's Manufacturer's Committee; conducting a meeting of HAI's Public Relations Advisory Committee; making presentations at the ROTAF meeting; and having Chairman Fred Moore as an invited guest at the AHS head table during their awards' banquet.

Many HAI notables, including Chairman Moore, Vice Chairman Zuccaro, Past Chairmen Vernon Albert, President Jensen and staffers Leister and Meade attended the Lobsterfest hosted by Aeronautical Accessories, Edwards and Associates and RotorBlades, Inc. More than 800 people attended this event co-hosted by Bob McNab.

HAI also was represented at the following: the New England Helicopter Pilots Association's meeting; an EMS Safety Seminar in Pittsburgh, PA.; a meeting of the Mid-Atlantic Helicopter Association's ad hoc committee on restructuring, chaired by HAI's Jensen; the Southwest Arizona Helicopter Safety Seminar attended by Don Andrews, Rocky Mountain Helicopters, and Jack Mitteer, McDonnell Douglas Helicopter Corp.; the FAA's SSER/NOTAM Review, attended by HAI's Leister; an FAA-ATC Pilot Human Factors Conference, also attended by Leister; and a meeting with Robert D. Cook, U.S. Representative Air Navigation Commissioner, ICAO.

Other notable achievements include: the holding of the lottery for exhibitors for Heli-Expo '91 by Dickey and Exhibits Manager Andrew Miller with oversight of Manufacturers' Committee co-chairman Barry New; completion of the HAI Heliport Directory by HAI's Heliport Technical Planning Committee and HAI's Bunch and Melanie Beames. This directory was dedicated to Jean Ross Howard Phelan for her many contributions to helicopters during her work with the Whirly-Girls, and the Aerospace Industries Association.

Chairman Moore wrote an important letter to the HAI membership requesting their assistance in three areas: membership recruitment, Heli-Expo exhibitor encouragement, and advertising in ROTOR and the Helicopter Annual.

HAI's Miller, DiCampli and D'Souza completed the annual dues invoicing of the HAI membership to implement the 10% dues increase mandated by the HAI Board of Directors.

Approximately 2,500 "Requests for Papers" were mailed in preparation for the October 18-20 "Conference on Rotorcraft Transportation Facilities."

June

HAI's Executive Committee, and Board of Directors, met in Alexandria, VA at HAI headquarters. Also meeting at this time were the following committees: Safety, Flight Operations, Utilities Patrol and Construction, Heli-Pac, Legislative Advisory, and Public Relations.

Other notable activities this month: Chairman Moore and President Jensen visited the USSR at the invitation of Kamov Design Bureau's General Designer. Jensen made a presentation at the House of Culture of the Kamov Design Bureau in Moscow and he and Moore conducted a question and answer period there. They also visited the All-Union Institute of Aviation Use located in Krasnodar which is 900 nautical miles south of Moscow. They also flew by Mil 8 helicopter from Krasnodar to a location in the Caucasus Mountains to observe logging demonstrations using the KA-32. Moore and Jensen also made presentations to the top members of the Institute at Krasnodar.

This month HAI: participated in Rotor & Wing's civil tilt-rotor seminar; coordinated plans for the brochure: "Helicopters...How They Fly...and What They Do" through the efforts of HAI's Leister and his assistant, Sarah Holsinger; hosted a meeting at HAI headquarters of the Association of Aviation Public Relations Professionals coordinated by Warsley and Vujcec; attended the Eastern Region Helicopter Seminar.

HAI's Minaya, and outside counsel David Hammond, working the problem of excess aircraft-- particularly the 1990 Farm Bill--succeeded in having favorable language inserted into the Bill.

The industry also received consent to eliminate the FAA's proposed VOR requirements for VFR helicopters in Terminal Control Areas, an action worked on by HAI's Leister.

Director Richard Salzarulo, Sun Company Inc., worked with Upper Merion Township, PA toward the development of a public-use heliport.

July

HAI's new Executive Committee officially began its term July 1. They are: Matthew S. Zuccaro Chairman; Robert D. Fox, Vice Chairman; Robert S. McNab, Treasurer; and John Anderson, Vice Treasurer.

HAI was represented at, or participated in: the ALEA annual meeting in Buffalo; the annual meeting of the Vietnam Helicopter Pilots' Association at which HAI President Frank L. Jensen was presented a plaque; the RTCA's SC 166 Terminal Airspace User's Requirements meeting; hearings of the House Subcommittee on Transportation, Aviation and Materials, and the Senate Appropriations Subcommittee on Defense, on V-22 civilian applications/defense funding; the Aero Club of Washington meeting at which HAI's Jensen was a head speaker; and a COFIRE (Coalition on Fiscal Reform) meeting in response to the national budget summit.

HAI also completed installation of a new, state-of-the-art computer system utilizing components 15 times faster than its predecessor, with enhanced graphics capability. HAI thanks Ed DiCampli, Manager of Information Systems, for his excellent choice of computer upgrade components.

Editing and production of the Summer edition of HAI's ROTOR magazine was completed. Its theme was "The Civil Helicopter's Role in Energy."

August

HAI's Executive Committee met in Bridgeport, Connecticut with Sikorsky Aircraft providing the meeting space. Along with a full agenda, the Executive Committee visited the flight departments of General Electric and Wayfarer Ketch, and Ramapo Helicopters.

HAI mailed registration kits for the Conference on Rotorcraft Transportation Facilities; attended the FAA's Human Factors Working Group meeting; attended the Civil Rotorcraft Initiative meeting; held a PRAC meeting in Philadelphia to discuss promotion of the Rotorcraft Conference; met with the FAA's Civil Tiltrotor Working Group;

coordinated plans for the Safety Symposium, Maintenance Management course, and Safety Management courses at HELI-Expo '91; prepared a coordinated HAI/HHOA response to the Hawaii State Department of Transportation on Fly Neighborly issues; and attended an FAA/ICAO Communications/ Meteorology/Operations meeting to prepare U.S. input for the development of international meteorological service standards.

September

Chairman Zuccaro, Treasurer McNab and President Jensen represented HAI at the Farnborough International Air Show. Offshore Committee Chairman Dr. John Leverton, E.H. Industries, co-chaired a meeting with the European Helicopter Association's council at which the ICAO Heliops panel recommendations were addressed. HAI's Director of Heliports and Technical programs, Ron Bunch, also attended. The HAI group participated in many important functions addressing the needs of the international HAI membership.

During September, HAI also participated in: a meeting of the USC Aviation Advisory Board; NASAO's annual meeting; an FAA/HAI safety seminar; the AAMS annual meeting; a meeting of the civil tiltrotor advisory group; and the Symposium on Transportation presented by the Mid-Atlantic Helicopter Association at which HAI's Jensen was a guest speaker.

Of special staff note was the hiring of: Chris Bourne, Membership Assistant; Elizabeth Veen, Executive Department Secretary; and Suzanne Anderson, Communications Assistant. HAI was pleased to have these professionals join the team.

President Jensen met with: Giff Marr, Bell Helicopter Textron and Dr. John Leverton, E.H. Industries about international airworthiness; AHS' John Zugschwert as part of their on-going exchange of common association objectives; Barry Desfor and Ralph Rosenbrock to discuss a proposed SafeFlight program; and, along with Chairman Zuccaro, with JHN's Kayashima to discuss HAI's participation in Asia Heli-Expo '91.

Jensen also wrote a letter to Senator Robert Dole officially urging him to resist the proposed luxury tax on private aircraft being then considered as part of federal budget negotiations. Jensen wrote, "We (the HAI) strongly urge you to resist any proposal which imposes a 'luxury' tax on private aircraft. Placing an undue burden on one segment of the business community will only further hurt the economy by damaging the strength of the private sector."

October

A main event for HAI during this month was the "Conference on Rotorcraft Transportation Facilities" a major success attended by 117 professional city, county or state planners, civic authorities and important members of the public heliport planning community. The conference was conducted in cooperation with the AHS, American Planning Association, the FAA and NASA. The FAA plans to publish a summary of the proceedings for distribution. Special thanks is given to HAI's Bunch and Dr. Leverton for their planning and dedicated efforts to insure a successful, landmark conference.

HAI's Manufacturers' Committee met at HAI headquarters; HAI's Zuccaro and Jensen held an important meeting with the California Department of Forestry regarding the closer working relationship between the commercial and public sector operators.

HAI was well represented at the annual meeting of the National Business Aircraft Association in New Orleans; HAI's Public Relations Advisory Committee met; and Zuccaro and Jensen met with representatives of the Aviation insurance Center and CIGNA to discuss a restructuring of the HAI Hull and Liability Insurance program.

Other important events in which HAI participated included: the Eastern Region Helicopter Council's annual meeting; the dedication ceremony of Rolls Royce's new suburban Virginia headquarters; a meeting of the MAHA Executive Committee; a meeting of the FAA's ROTAF; and a key meeting with FAA Administrator James Busey regarding the ICAO problem.

President Jensen attended a helicopter safety seminar in Bogota, Colombia where he was a guest speaker. This seminar was organized by HAI Special Advisors Dan Carson, German Nieto and HAI Affiliate Member Helicopter Operators' Association of Colombia.

November

At its November meeting, and amongst its usual heavy agenda, the HAI Board of Directors appointed Elizabeth Meade HAI Secretary. Henry D'Souza was named the HAI Comptroller as well. During the timeframe of the Board meeting, meetings of HAI's Executive Committee, Safety Committee and Legislative Advisory Committee also occurred.

In conjunction with the Board meeting, Chairman Zuccaro and President Jensen visited a number of HAI members in the central California area including: the California Department of Forestry, Apple Valley Helicopters, Sunrise Helicopters, Rogers Helicopters, Federico Helicopters, Jetcopters, Southern California Edison and the aviation units of the City of Los Angeles Police Department and the Pasadena Police Department.

This month, the Government Contracting Committee continued to provide details on Direct Operating Costs to the US Forest Service in Boise, Idaho to facilitate realistic cost parameters for on-call fire contracts for the coming fire season. The Government Contracting Committee, with the assistance of HAI's Minaya, also worked with the U.S. Department of Labor towards a realistic wage determination for helicopter crews.

Other important activities for HAI this month included: a meeting of the Offshore Committee; a meeting in Philadelphia with Chairman Zuccaro, President Jensen, Insurance Representative Larry Mattiello and senior representatives of Aviation Insurance Center and CIGNA regarding proposed changes to HAI's Hull and Liability Insurance program; a meeting with the FAA's Civil Tiltrotor Coordinating Group; HAI's newest staff members receiving a helicopter flight orientation, offered by HAI-member Metropolitan Helicopters, at Manassas Airport in Virginia; publishing the Fall issue of ROTOR magazine featuring the theme: "Helicopter Operations in the 1990s."

December

HAI's Executive Committee met at the Association's Alexandria, VA headquarters to complete a large agenda. Also, the Awards Committee met to select the 12 winners of HAI's 30th Annual "Salute to Excellence" Awards.

HAI staff held its monthly meeting in the presence of members of the HAI Board of Directors who were informed that Heli-Expo '91 had "outgrown" the regularly-allotted space in the Anaheim Convention Center and that the show would expand into the center's Pacific Room for the first time.

HAI's PRAC met and discussed plans and strategies for Heli-Expo '91 publicity and the outline for press conference information to be presented by Chairman Zuccaro and President Jensen. The PRAC also discussed the possibility of establishing regional affiliations in order to facilitate operator involvement.

HAI's editorial and production staff, including Publisher Jensen, Editor Warsley, and Art Director Brown finalized the editing, proofing and layout of the Winter issue of ROTOR magazine while Directories Editor Kate Miller and Production Manager DiCampli completed layout for the 1991 Helicopter Annual.

Special thanks to the HAI membership for all their efforts in making 1990 a very rewarding year for the civil helicopter industry. Best wishes for safe and neighborly flying.

Helicopter Association International Committees

Aerial Applications Committee

The committee fosters and promotes the use of helicopters in aerial application of pesticides. The duties of the committee include: advising agricultural helicopter operators of changes in the case law decisions in regards to both wire strikes and phytotoxicity, which may or may not have an effect on their operation; attending on appropriate offices of the EPA and State Departments of Agriculture to ensure that agricultural helicopter operators' interests are presented in the best possible light; issuance and distribution of Ag Alert newsletters covering appropriate and timely topics involved in the aerial application of pesticides; and, serving as the "Agricultural Task Force" of the Regulations Committee by providing the technical and political expertise in developing Association positions on the government and/or community aeronautical agricultural standards and regulations that affect the helicopter industry (manufacturer, the operator and/or the user).

Economics Committee

The Economics Committee is a contact point for parties within the helicopter industry to exchange ideas on the economic factors that affect the cost of operations. The committee structure allows participants from operator, engine, and airframe groups to implement programs that benefit the industry.

The committee has two active programs, an industry ratio program, and a direct operating cost educational program. The Industry Ratio Program will allow individual operators to compare demographic, operational, insurance, financial, and direct operating cost information to industry averages. Results from the first survey will be discusssed during General Session One at HELI-EXPO '91.

The educational program will: yield publication and educational programs that will offer guidelines and illustrations on the definition, recording and reporting of direct operating costs; provide a standard chart of accounts for companies of various sizes; and provide guidelines and examples for the use of DOC's in the financial decisions of operators.

Emergency Medical Services Committee

The EMS Committee encourages all HAI EMS operators to actively participate. The committee has identified the area of standards, education training and heliport safety as its focus for the coming year. A consensus is sought on EMS operating standards with HAI, AAMS and the FAA. An EMS Training Guide is being developed for formulating or revising training programs.

The committee strives for improved and streamlined communications about safety concerns and solutions to problems which develop from multiple governing and regulatory agencies.

In a collaborative effort with the FAA and NTSB, the EMS Committee and the Safety Committee will sponsor a Safety Symposium at HELI-EXPO '91 that will address safety issues, helicopter professionalism, cockpit/crew training and human factors.

Flight Operations Committee

The Flight Operations Committee includes chief pilots, flight instructors, flight examiners and ground school/simulator instructors who will actively participate in local/national initiatives to improve VFR/IFR regulations, flight procedures, helicopter routes, charts, and the Airman Information Manual.

The committee has an active role in making recommendations to the FAA/ICAO on pilot certification, the Basic Helicopter Handbook, Airspace, Flight Regulations, and the national FAA Air Traffic Procedures Advisory Committee (ATPAC).

The committee seeks input from Affiliate organizations, other HAI committees, and individual members to develop a strong industry voice, representative of the broad operational interests of the civil helicopter industry.

Fly Neighborly Committee

The Fly Neighborly Committee strives to increase pilot participation in and public awareness of HAI's Fly Neighborly Program, a voluntary noise reduction program for civil and military helicopter operators. Priorities for the committee are expected to be: 1) coordinate Fly Neighborly activities with regional associations and with HAI Safety and Heliports Committees and with the Public Relations Advisory Council, and 2) establish a program recognizing helicopter operators, individuals and agencies who develop the Fly Neighborly Program or those whose special Fly Neighborly achievements have enhanced the helicopter's image in the community.

All Affiliate Members of HAI are invited to nominate "Fly Neighborly" representatives who are willing to actively participate in the critical task of gaining public acceptance of the helicopter. Persons interested in joining the committee should contact the committee chairman.

Government Contracting Committee

The Committee maintains a communications link between the commercial helicopter contractors and public agencies that use helicopters.

The duties of the committee include: informing the Board of Directors, through committee liaison, of action by government contracting agencies affecting the helicopter industry; presenting the positon of HAI operators regarding government contracting to government agencies through channels of communication established, developed and maintained by this committee; ascertaining that the best interests of the helicopter industry are served in the areas of content and provisions of contracts offered by government and political subdivisions for the use of helicopters; and, to be alert to the areas of government competition with free enterprise and to return these helicopter activities to their proper place in the competitive private sector.

Government Service Committee

The primary objectives of the Government Service Committee (GSC) are threefold: first, the continued expansion and use of the helicopter within the realm of public service; second, to act as a gathering and disseminating point for information needed in the establishment and promotion of helicopter operations and specialized equipment; third, to provide a vital communication link between the HAI and the Airborne Law Enforcement/ Association (ALEA).
Our short term goals include establishing a nationwide mailing list of public use agencies in an effort to expand membership within HAI and our Ccommittee. The effectiveness and success of the Committee lies in the interaction and direction received from the Government Service Committee constituency and effectively blending other HAI Committee goals with our own.

HeliPAC

HeliPAC, a separate and segregated fund of HAI, was created to ensure a healthy future

for the civil helicopter industry and profession. Contributors support these critical issues: educating Congress and the Administration on issues that threaten the survival of the civil helicopter industry; increasing awareness of the important role and value of the helicopter in regional and national transportation systems; and, demonstrating collective strength and concern among helicopter professionals over changes to laws and regulations governing our industry.

Contributions are used in public awareness campaigns on behalf of candidates that HeliPAC will be supporting. Also, financial support goes directly into campaigns of the helicopter industry's friends in Congress. HeliPAC contributions are voluntary and not a condition of membership. A copy of reports of receipts and disbursements is filed by HeliPAC with the Federal Election Commission, Washington, D.C. 20463.

Chairman

Treasurer
Wanda L. Rogers
Rogers Helicopters, Inc.

Staff Liaison
Anna Miraya
Legislative Assistant, HAI

HAI's Board of Directors recently approved the creation of a political education committee that will be known as HeliPEC. HeliPEC will be a fund established to collect corporate contributions to better inform and educate members of Congress on issues that affect the civil helicopter industry. It will also provide an opportunity for civil helicopter operators to become actively involved in the political process. The contributions of corporate funds will pay for the following activities and others designed to convey the political positions of the industry: support efforts to inform and educate members of Congress, and the administration on public policy issues affecting the civil helicopter industry; help to fund research reports and surveys on key legislative or regulatory issues; develop research reports on key legislative issues; contribute "speaker honoraria" to support HAI's conventions, conferences and regional meetings; and, help to fund special receptions and events, and defray portions of the administration and fund-raising cost of HAI's Political Action Committee.

Heliport Promotion and Development

This committee is one of HAI's two heliport committees which work to place greater emphasis on public heliports, and provide marketing, promotional and technical assistance to heliport proponents.

The committee is developing marketing strategies and materials to educate civic leaders and to promote heliports and overcome resistance to heliport operations.

Heliport Technical Planning

The Heliport Technical Planning Committee's primary functions are to develop guidance materials for members and planners, and to work with the FAA and other agencies on heliport design criteria and related issues.

The committee includes professionals who are familiar with technical aspects of heliports, heliport applications, heliport designs, statistical and safety data, heliport upgrades, and FAA procedures.

The committee coordinates industry review of new heliport design criteria, revisions to the HAI Heliport Development Guide, and works closely with the Acoustics, Safety and Heliport Promotion and Development Committees to establish safe and efficient heliport systems to serve the public.

Legislative Advisory Committee

The committee monitors, reviews and makes recommendations concerning political and legislative issues with potential impact on the civil helicopter industry. The new duties of the committee include: to recommend action to HAI's elected leaders, which involves recommending or determining policy that HAI should take on important issues; to become informed on important issues, which involves assembling, analyzing and discussing information on important legislation affecting both the industry and the business community as a whole, so that each member of the committee can be an effective spokesman for HAI; and to inform the membership at large on immediate and long-range effects of federal, state and local legislation.

The members of the Committee represent the HAI members in their respective regions or constituencies. The Committee is structured to provide for effective communication between the membership, regional representatives and HAI staff.

Public Relations Advisory Council (PRAC)

The PRAC Committee advises HAI on a variety of internal/external communications projects with the long-term objective a stronger acceptance of the positive image of the civil helicopter. Its activities include: logistics and preparation of HAI's annual press conference; dissemination of the civil helicopter industry fact card; and advancement of grassroots media relations efforts by HAI's operator members. Operator communications officers are encouraged to join the PRAC. Please contact the staff liaison for information.

Safety Committee

The Safety Committee is comprised of a cross section of international safety experts from the helicopter industry including representatives from agriculture, air carrier/air taxi, corporate, public service, manufacturers, insurance companies, and government. The committee consists of 12 members, two ex-officios and four advisors. It meets three times a year to identify safety issues in the industry and establish courses of action to solve them. A close working relationship is maintained with the FAA, regional associations and the HAI membership.

The Safety Committee is responsible for the HAI Safety Management Course, which is held in conjunction with HELI-EXPO. The committee works closely with Craig Geis of Geis-Alvarado & Associates to update the course curriculum. Industry issues involve active course participation by committee members.

The committee helps coordinate HAI-Allison Helicopter Flight Instructor Refresher Course and sponsors the Directors Forum each year during HELI-EXPO, provides a forum for discussion of issues and concerns of operators and safety directors.

The committee updates the HAI Safety Manual for distribution to all members, and committee provides input to the USAIG Safety Poster program consisting of ideas and narratives for the bi-monthly posters. Committee members promote and participate in safety seminars throughout the year and review regulatory prposaals with the FAA. The committee is also working with the FAA in developing a video about the role of management in helicopter safety and operations. The committee provides significant input to HAI to formulate industry positions on key issues.

HAI members and regional organizations are encouraged to contact anyone on the committee for assistance or participation in safety meetings and forums.

Technical Committee

The Technical Committee actively strives to support all areas of the civil helicopter industry. Activities include facilitating dealings with the FAA on the local and national levels, i.e.: input on airworthiness directives; review of FAR changes; and, through HAI supplying the FAA with our input on appointed personnel. The technical committee also addresses problems between HAI members and the FAA.
The committee continues to support and encourage use of the Maintenance Malfunction Information Report, which has gained acceptance from both the civil helicopter industry and the FAA.

The technical committee is looking for new members. Those interested in joining the committee may contact: HAI, Director of Heliports and Technical Programs.

Utilities, Patrol and Construction Committee

The Utilities, Patrol and Construction Committee was formed to promote the safe use of helicopters for aerial patrolling and construction in the utility industry, and to provide a forum for discussion on subjects and techniques of mutual concern.

One of the main goals of the committee is to develop and promote safe standards and guideline for helicopter operators in the utility environment. The major emphasis will be to study and address any topic of concern to these activities. Any HAI member who would like to contribute to the committee may contact Committee Chairman Bill Griffiths at 503-464-8676.

The 29th HAI Annual Awards

Outstanding leaders of the civil helicopter industry were recognized at the HAI Annual Salute to Excellence Awards Ceremony, February, 1990, in Dallas, Texas. Cited below are the awards and their deserving recipients.

LAWRENCE D. BELL MEMORIAL AWARD

The Lawrence D. Bell Memorial Award, established in 1971, honors an individual for outstanding service to the civil helicopter industry over a period of time. Nominees need not be licensed pilots.

HAI Chairman Fred Moore, left, presents the Lawrence D. Bell Memorial Award to Wes Lematta, Columbia Helicopters. Lematta helped establish logging as one of the largest commercial applications for the civil helicopter. Under Lematta's direction, Columbia has achieved an impressive record of safety, dependability and cost effective civil operation of the tandem rotor helicopter.

CREW OF THE YEAR AWARD

HAI has presented the Crew of the Year Award since 1980 in recognition of the support and team work of the specialized helicopter crew in performing the various missions of the civil helicopter. Nominees may have worked together on a particular mission, or in a consistently outstanding manner for a period of time.

HAI Crew of the Year recipients, Capt. Mike Wood, center, and Capt. Stuart Gregg, Bristow Helicopters Ltd., receive their plaques from HAI Chairman Fred Moore. The Crew of the Year was honored for rescuing 31 men from a rolling offshore oil platform at night in 70 mph winds.

EXCELLENCE IN COMMUNICATIONS AWARD

Established in 1980, the Excellence in Communications Award is given to the media journalist achieving the most creative and distinct dissemination of information about the civil helicopter industry.

HAI Chairman Fred Moore, left, presents HAI's Excellence in Communications award to Peter Corley-Smith, Royal British Columbia Museum, Victoria, BC. Corley-Smith has made the history of the helicopter available to a cross section of the public through his books and public speaking.

HELICOPTER MAINTENANCE AWARD

Established in 1973, the Helicopter Maintenance Award recognizes distinguished, long-standing excellence in the performance of helicopter maintenance, and concomitant contributions to aviation.

Robert Whitson, right, Edwards and Associates, receives HAI's Helicopter Maintenance award from Chairman Fred Moore. For the past 23 years, Whitson has put safety, quality and professionalism foremost in his career. He supervises 31 technicians who perform regular maintenance for 30 eastern U.S. helicopter operators.

MBB GOLDEN HOUR AWARD

The MBB Golden Hour Award was created in 1982 to honor an Emergency Medical Services (EMS) helicopter pilot for providing outstanding assistance in a specific emergency situation, thereby advancing the use of helicopters in lifesaving operations.

Scott Smith, Line Pilot, Petroleum Helicopters, Inc., above right, and Chuck Thompson, Acadian Ambulance, below right, receive their plaques for the MBB Golden Hour award from HAI Chairman Fred Moore. Their dramatic rescue of an injured motorist was featured on a national CBS-TV program.

MCDONNELL DOUGLAS LAW ENFORCEMENT AWARD

First Presented in 1972, The McDonnell Douglas Law Enforcement Award is given for a worthy contribution to the advancement of the crime-suppression concept of helicopter patrol service. Nominees are not limited to pilots or law enforcement personnel.

For providing a consistently high level of law enforcement helicopter service to the people of the city of New York for more than 40 years, the McDonnell Douglas Law Enforcement award was presented to the New York Police Department Aviation Unit. From left: HAI Chairman Fred Moore, Captain Joseph Mottle, Sgt. George Koehler and Sgt. Harry Arend.

OUTSTANDING CERTIFIED FLIGHT INSTRUCTOR AWARD

HAI's Outstanding Certified Flight Instructor (CFI) Award was established in 1985 to recognize superlative contributions by the helicopter flight instructor in upholding the high standards of excellence for helicopter pilots.

Loren Doughty, Bell Helicopter Textron, right, receives HAI's Outstanding Certified Flight Instructor award from HAI President Frank L. Jensen, Jr. Doughty was honored for his work in setting industry safety standards and for instilling those standards in more than 15,000 civil helicopter pilots.

PILOT OF THE YEAR

Established in 1960, the Pilot of the Year is the oldest of HAI's twelve "Salute to Excellence" Awards. The award recognizes an outstanding single feat performed by a helicopter pilot during the year, or extraordinary professionalism over a period of time. Nominees must be active civilian helicopter pilots.

HAI President Frank L. Jensen, Jr., left, presents the Pilot of the Year award to Dick Siegel, WBAP Radio, for his rescue of a woman and her daughter stranded atop their car during a flood.

ROBERT E. TRIMBLE MEMORIAL AWARD

The Robert E. Trimble Memorial Award honors a qualified pilot who is especially distinguished in mountain flying. The award was established to facilitate public recognition of a pilot who has displayed exceptional ability and good judgement in high altitude flying, and has provided outstanding service to others while contributing to high standards of safety.

Kenneth Johnson, center, Mountain Rotors, Inc., receives the Robert E. Trimble Memorial award from HAI Chairman Fred Moore, left, and Gerry Trimble. Johnson received the award for several daring rescues in the Rocky Mountain area including the rescue of an injured climber from the summit of the Grand Teton.

SAFETY AWARD

The Safety Award, first presented in 1988, acknowledges outstanding contributions in the promotion of safety awareness throughout the civil helicopter industry.

Joe Mashman, right, receives the Safety award from Chairman Fred Moore for his devotion to safe flying operations and techniques during a long and distinguished career. Joe Mashman's contributions virtually parallel the development of the civil helicopter industry beginning in 1947 when he flew the Bell 47–the first civil helicopter.

THE IGOR I. SIKORSKY AWARD FOR HUMANITARIAN SERVICE

This award, sponsored by Sikorsky Aircraft in honor of its founder, is presented to the person(s) who best demonstrates the value of civil rotorcraft to society through the saving of life, protection of property, and amelioration of distress.

For superb flying skills that led to the rescue of seven shipwrecked fishermen, two U.S. Coast Guard crews were named the first recipients of the Igor I. Sikorsky award for Humanitarian Service. From left, crew 6584: Hoist Operator Anthony Johnson, Cmdr. Dana A. Goward, and co-pilot Lt. Patrick McHugh. Center, HAI's Fred Moore; and Crew 6591: Hoist Operator John Romano, co-pilot Lt. Michael Houtz , and Cmdr. Lt. David Spillman.

COMMUNITY SERVICE AWARD

The Community Service Award is presented to an individual or organization for outstanding service to the community in, but not restricted to, the following areas: the establishment of public-use heliports; advancement of the use of helicopters in urban area operations; and the advancement of Fly Neighborly concepts.

S. Duane Moore, Illinois Department of Transportation, right, receives HAI's Community Service award from Fred Moore. The program Duane Moore developed has the nation's largest EMS heliport system that includes more than 130 hospital heliports and has transferred over 8,000 critical patients with no EMS accidents in more than 18 years of flying statewide in Illinois.

HAI PUBLICATIONS

Periodicals

1991 HELICOPTER ANNUAL A comprehensive reference guide for the civil helicopter industry. The Helicopter Annual includes helicopter specifications, industry statistics, HAI membership directories by class and geographical matrix, listings of international civil aviation contacts, key FAA regional & headquarters contacts, aviation periodicals, association committees, and more. *Price:* First copy free to HAI members, additional copies $20; $40 to non-members. Shipping & handling $3 within the U.S.; $5 international.

ROTOR MAGAZINE A quarterly magazine dedicated exclusively to the civil helicopter industry, ROTOR contains news and features on the civil helicopter industry. It covers pertinent helicopter operational, safety and regulatory issues, including an FAA question & answer column, legislative and lobbying issues and HAI committee and member activities. *Price:* Subscription to ROTOR is included in membership dues. Within the U.S., non-member subscriptions are $15 per year or $25 for a two year subscription. Outside the U.S. $25 per year or $42 for a two year subscription. Shipping & handling charge included.

OPERATIONS Update A periodic newsletter which reports summaries of Final Rules and Notices of Proposed Rulemaking from the Federal Register, announcements of other governmental and industry activities, advisory circulars, petitions, meetings and initiatives that affect helicopter certification, airworthiness, airspace access and flight operations, 12 issues yearly. Price: One subscription included in Regular Member dues, and Associate Member dues upon request. Other HAI Member or additional Member subscriptions $50 per year; non-member $135 per year. U.S., Canada and TNT air drop shipping and handling included. For International Air Mail direct delivery, add $25.

MALFUNCTION OR DEFECTS REPORTS A quarterly compilation listing malfunction and defect data from the Federal Aviation Administration on aircraft components and maintenance procedures. *Price:* Available only by subscription, members $25 per year; non-members $40. Shipping & handling charge included.

PRELIMINARY ACCIDENT REPORTS Monthly Preliminary Reports, Technical Notes, Airworthiness Directives, Service Difficulty Reports, and civil helicopter accident statistics reported to NTSB, CASB and FAA. Includes HAI trend analysis and cumulative monthly and prior year accident totals, and Alert Service Bulletins from manufacturers. Price: Included in Regular Member dues, and Associated Member due upon request. Other HAI Member or additional subscriptions $35; non-member $75 per year. U.S., Canada & TNT air drop shipping included. For International Air Mail direct delivery, add $25.

Helicopter Career Information

Pilot/Mechanic Training Schools

This listing is a handy reference to HAI member flight and mechanic schools in the U.S. and Canada. (If your organization offers training services, contact HAI to be included in the directory.) *Price:* $6.00 in the U.S., $7.00 outside the U.S.

Technical Manuals and Guides

AERONAUTICAL DECISION MAKING FOR HELICOPTER PILOTS The result of a ten year FAA research, development, testing and evaluation program to determine the feasibility and effectiveness of teaching the aeronautical decision making process to pilots, this manual includes chapters on self-assessment of hazardous attitudes, judgement concepts, identifying and reducing stress, and applying decision making concepts. (1987, 135 pgs.) *Price:* Members $8; non-members $12. Shipping & handling $3 within the U.S.; $5 international.

FLY NEIGHBORLY GUIDE An outline of HAI's Fly Neighborly Program, a voluntary sound-reduction program designed to integrate helicopter operations into the community, this guide actively addresses noise abatement and public acceptance of the helicopter as well as serving as an important pilot training tool. *Price:* HAI is pleased to distribute single copies of The Fly Neighborly Guide free-of-charge as an industry service. Shipping & handling $2 within the U.S.; $4 international.

HELICOPTER USERS' GUIDE An information booklet designed to answer the questions most commonly asked by those employing helicopter services for the first time. Developed by HAI's Safety Committee, the Helicopter Users' Guide provides basics on helicopter aerodynamics, helicopter maintenance, factors affecting performance, and safety guidance for passengers and support personnel to ensure a safe and efficient flight. *Price:* HAI members $1 each; non-members $2 each. For 100 copies, $50 to members; non-members $75. Shipping & handling for 100 copies, $2 U.S.; $15 international. Price may change.

HELIPORT DEVELOPMENT GUIDE A guide for operators, community planners and heliport developers, this extensive publication includes selected FAA publications (i.e., Heliport Design Criteria, Noise Assessment Advisory Circular), offshore and hospital heliport guidelines, FAA blank forms to give notice of heliport activation/deactivation per FAR 157, and numerous resources needed to plan, develop and implement heliports (1987, over 800 pgs). *Price:* HAI members $65; non-members $95. Shipping & handling $15 within the U.S., $30 int'l.

HELIPORT DIRECTORY A Heliport Directory serving the helicopter industry, this publication includes 400 pages of EMS and State Heliports in the United States, Virgin Islands and Puerto Rico. The information contains a full location of all heliports including latitude and longitude, public use/private use designation, attended/unattended information, and whether the facility is lighted or not. The directory is conveniently encased in a three-ring binder. The listings are updated each year. (1990, 400 pages) Members: $35 Nonmembers: $50 Refills/updates: $25.

HOLDING ON TO REVENUE This 16-page guide was developed by HAI's Economics Committee to help operators recognize basic business skills required for successful commercial helicopter operations. *Price:* HAI Member: $5; Nonmember: $8.

GUIDANCE FOR CONDUCTING INDEPTH (PART 135) INSPECTIONS This document is FAA's National Aviation Inspection Program Guidance to field Offices (FSDOs). *Price:* HAI members $10; non-members $15. Shipping & handling is free.

GUIDE FOR THE PRESENTATION OF HELICOPTER OPERATING COST ESTIMATES A comprehensive standardized guide to airframe and engine manufacturer operating cost estimates to assist helicopter operators to project, track and record direct and indirect operating expenses. Published by Aerospace Industries Association of America in cooperation with HAI. (1987, 36 pgs.) *Price:* $ 7.00.

SAFETY MANUAL An extensive guide to assist helicopter operators in developing a company safety program. The manual includes suggested company policy and procedures, medical and human factors, accident prevention programs, maintenance and survival programs and more. The 1990 revised Safety Manual, approx. 200 pgs. *Price:* One copy of the Safety Manual is provided free-of-charge to HAI Regular Members upon approval of membership. Associate Members may request a copy in writing. Other HAI members may order a copy of the manual for $95; non-members $115. Shipping & handling $15 within the U.S.; $30 int'l.

HELICOPTER SAFETY REFERENCE GUIDE The Helicopter Safety Reference Guide, 160 pgs., is sold separately: $20 for members; $30 non-members, while supplies last. Shipping & handling $3 within the U.S.; $5 international.

Technical Reports and Papers

FAA HELICOPTER ABSTRACTS AND BIBLIOGRAPHY This publication contains executive summaries, or abstracts, from technical reports and documents on operations completed by the FAA in the last 25 years. It provides an excellent background for people and companies interested in a quick review of advancements in helicopter technology. (1986, 105 pgs.) *Price:* HAI members $15; non-members $25. Shipping & handling $3 within the U.S.; $5 int'l.

COMMUNITY ROTORCRAFT BENEFITS & OPPORTUNITIES A comprehensive report to assist planners in assessing and planning for the use of rotorcraft transportation in their communities, it also provides information based on the proceedings of the Monterrey Conference on Rotorcraft and Commuter Transportation, helicopter research, economic opportunities and benefits. Published in coordination with NASA and the American Planning Association. (180 pgs) *Price:* HAI members $10; non-members $25. Shipping & handling $3 within the U.S.; $5 int'l.

Introducing the APOLLO FLYBUDDY PLUS with the Flybrary datacard

DON'T LEAVE THE GROUND WITHOUT IT!

Add the **Flybuddy Plus** datacard to your preflight checklist to make sure it's on board before you're off the ground.

Instead of poring through stacks of pilot manuals, you can access your datacard for VOR, NDB, airport, seabase, and heliport information. Just enter the city name or airport identifier and press the info button to see –

- facility name, city, state and country
- field elevation
- facility type
- runway direction, lengths, surface and lighting
- frequencies (ATIS, Unicom, CTAF, etc.)
- fuel types
- lat/lon coordinates

To fly there, you simply press the direct-to button and enter. Loran navigation has never been easier!

Flybrary datacard regions: **North America** (U.S.A., Canada, Mexico, Caribbean and Central America) • **Western U.S.A./Canada • Eastern U.S.A./Canada • Central U.S.A./Canada • Europe/Mideast.**

If you're flying over the U.S. or Canada and travel beyond the bounds of your regional datacard, just remove it and use Flybuddy's imbedded airport/VOR database. You can keep right on navigating while you make the switch!

Visit your local Apollo dealer today, order your **Flybuddy Plus**,* and remember . . . don't leave the ground without it.

APOLLO FLYBUDDY PLUS

*Your non-datacard Flybuddy easily upgrades to the FLYBUDDY PLUS. See your dealer for details.
